**INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors  
The Riviera Beach Community Redevelopment Agency  
Riviera Beach, Florida

**Opinions**

We have audited the accompanying financial statements of the governmental activities, business-type activities, and each major fund of the Riviera Beach Community Redevelopment Agency (the Agency), a component unit of the City of Riviera Beach, Florida (the "City"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, and each major fund of the Agency as of September 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Agency and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**Independent Auditor's Report**

**Auditor's Responsibilities for Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and Chapter 10.550, Rules of the Auditor General, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3–8 and 32–33 to be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Independent Auditor's Report**

***Other Information***

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 29, 2023, on our consideration of the Agency, a component unit of the City's internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Agency, a component unit of the City's, internal control over financial reporting and compliance.

RIVIERA BEACH COMMUNITY REDEVELOPMENT AGENCY  
(A component unit of the City of Riviera Beach, Florida)  
**Management's Discussion and Analysis**  
September 30, 2022

The Riviera Beach Community Redevelopment Agency (Agency) Management's Discussion and Analysis (MD&A) is intended to provide the readers of the Agency's financial statements with a general overview of the financial activities during Fiscal Year 2021. This report and related financial statements include the consolidated financial position and result of activities of the Riviera Beach CDE, Inc. (RBCDE), which is a controlled entity of the Agency. Refer to Note 1 of the *Notes to the Basic Financial Statements*. The information in this section should be read in conjunction with the financial statements and the notes.

## HIGHLIGHTS

### Financial Highlights

- As of fiscal year end 2022, the Agency's reported a total deficit net position of \$6.367 million which is a decrease of \$3.189 million from the prior year's deficit of \$3.177 million. During FY 2022, the repayment of the grant in the amount of \$6,930,000 was cancelled as a result of the unwinding of the New Market Tax Credit agreements resulting in a write off.
- For FY 2022, total revenues increased by \$2.452 million or 24.44%, over those reported in the prior year. This is due mainly to an increase in taxes and rental income from the Marina Event Center.
- For FY 2022, total expenses declined by \$0.933 million, or 12.11%, over those reported in the prior year. This is due mainly to an increase in operating expenses and interest costs.

## OVERVIEW OF FINANCIAL STATEMENTS

The Agency's basic financial statements provide information on both the Agency as a whole (government-wide) and the major individual funds.

### Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the Agency's finances, in a similar manner to a private-sector business. The government-wide financial statements are prepared using the accrual basis of accounting.

The government-wide financial statements include:

*Statement of Net Position* – This statement presents information on the Agency's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. This statement format combines and consolidates the governmental funds' current financial resources with capital assets and long-term obligations.

*Statement of Activities* – This statement presents information showing how the Agency's net position changed during the fiscal year. All changes in revenues are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

The government-wide financial statements present functions of the Agency that are supported principally by tax increment financing (governmental activities). The governmental activities of the Agency include general government activities and redevelopment projects.

### **Fund Financial Statements**

Fund financial statements provide readers with an overview of each fund and its related function in a traditional format. A fund is a grouping of related accounts that maintain control over resources that are segregated for specific activities or objectives. The Agency uses fund accounting to ensure and demonstrate legal compliance with financial related legal requirements. The General Fund is the only governmental fund that is used to account for the operating activities of the Agency. The General Fund also includes the activities of the redevelopment programs which are funded by restricted debt proceeds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources and balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The focus of governmental funds is narrower than government-wide financial statements and, therefore, useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. The *Balance Sheet – Governmental Funds and Statement of Revenues, Expenditures, and Changes in Fund Balance – Governmental Funds* are reconciled to the government-wide statements to facilitate the comparison between the two presentations.

### **Notes to the Basic Financial Statements**

The Notes to the Basic Financial Statements provide additional information that is essential to the full understanding of the information presented in the government-wide and the fund financial statements and is required by generally accepted accounting principles.

### **Required Supplementary Information**

In addition to the basis financial statements and accompanying notes, this report also presents required supplementary information concerning the Agency's budget to actual results for the General Fund. The Agency adopts an annual appropriated budget for the General Fund.

## FINANCIAL ANALYSIS OF THE FUND FINANCIAL STATEMENTS

The focus of the Agency's governmental funds is to provide information on near-term inflows, outflows and balances of expendable resources. Such information is useful in assessing the Agency's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The Agency's governmental funds reported an ending fund balance of \$4.822 million in comparison to the prior year's ending fund balance of \$12.751 million. This reduction is due mainly from the unwinding of the NMTC resulting in the CRA and the RBCDE agreeing to terminate the master lease and assign the ground lease in exchange for cancelling its mortgage notes.

## BUDGETARY ANALYSIS FOR THE GENERAL FUND

For FY 2022, the CRA's General Fund's budget for FY 2022 was \$24.058 million. Actual revenues was slightly higher than the original budget by \$0.301 million. Actual expenditures were below the budgeted amount by \$12.813 million due mainly to a reduction of real estate and redevelopment program and capital outlay expenditures.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The Agency's budget for FY 2023 includes an increase in tax increment revenues of \$1.286 million or 13.24% due to an increase in real estate values. The Agency will continue to focus on developing and implementing the second phase of the private development opportunities within the Marina Village and encourage real estate development and related new jobs and business opportunities within the CRA District.

Amounts reported for governmental activities in the statement of net position are different because:

Governmental funds report capital outlays as expenditures, however, in the statement of activities, the costs of those assets are depreciated over their estimated useful lives and reported as depreciation expense.

The issuance of long-term debt (e.g. bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. These amounts are the net effect of these differences in the treatment of long-term debt and related items.

## **Notes to the Basic Financial Statements**

---

## **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The summary of significant accounting policies of the Riviera Beach Community Redevelopment Agency (Agency) is presented to assist the reader in interpreting the basic financial statements. The policies are considered essential and should, therefore, be read in conjunction with the basic financial statements.

The accompanying basic financial statements are presented in conformity with generally accepted accounting principles (GAAP) for governments in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The following is a summary of the Agency's significant accounting policies and reporting practices.

### **Reporting Entity**

The consolidated financial statements include the accounts of the Corporation and the Subsidiary. Material intercompany transactions and balances have been eliminated in consolidation.

The Agency was established by a special act in 1969 of the Florida Legislature under Chapter 163 to develop and revitalize the blighted areas of the City of Riviera Beach (City). The Agency's services are rendered wholly within the boundaries of the City and its activities and transactions are intended to benefit the City by returning improved property to the City's tax rolls to enhance the business and cultural environment of the Agency's area and to provide employment to its citizens. The Agency was created by the City's Resolution No 130-84 dated August 7, 1984.

Community redevelopment agencies (CRA) are a common governmental tool for redevelopment in the State of Florida and operate on a budget generated by an increase in property taxes within a defined area. Once a CRA is established, a percentage of the increase in property taxes goes to the CRA. This tax increment is used to finance the redevelopment projects outlined in the Community Redevelopment Plan. The principal mission of the Agency is the preservation or enlargement of the community redevelopment area's tax base from which taxing authorities receive tax revenues to carry out public initiatives that stimulate the rehabilitation or redevelopment of the community redevelopment area.

According to Florida Statutes, Section 163.3755, Termination of community redevelopment agencies – (1) A community redevelopment agency in existence on October 1, 2019, shall terminate on the expiration date provided in the agency's charter on October 1, 2019, or on September 30, 2039, whichever is earlier, unless the governing body of the county or municipality that created the community redevelopment agency approves its continued existence by a majority vote of the members of the governing body. (2)(a) If the governing body of the county or municipality that created the community redevelopment agency does not approve its continued existence by a majority vote of the governing body members, a community redevelopment agency with outstanding bonds as of October 1, 2019, that do not mature until after the termination date of the agency or September 30, 2039, whichever is earlier, remains in existence until the date the bonds mature. (b) A community redevelopment agency operating under this subsection on or after September 30, 2039, may not extend the maturity date of any outstanding bonds. (c) The county or municipality that created the community redevelopment agency must issue a new finding of necessity limited to timely meeting the remaining bond obligations of the community redevelopment agency.

**Notes to the Basic Financial Statements**  
September 30, 2022

Pursuant to GASB Statement No. 14, *The Financial Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*; the Agency is considered a blended component unit of the City. The Agency is reported in the City's basic financial statements, as required. The Board of Commissioners of the Agency is comprised of the members of the City Council.

*Riviera Beach CDE, Inc. (RBCDE)* – The RBCDE was organized in May 2011, pursuant to the laws of the State of Florida as a 501(c) (3) non-profit corporation and its primary mission is to provide investment capital to low-income communities or persons of low-income and to engage in other community development activities for neighborhood improvement and community and economic development by providing sustainable job opportunities for low income residents. The RBCDE is certified by the U.S. Department of Treasury, CDFI Fund, as a Community Development Entity. The RBCDE is governed by a Board of Directors that consists of a minimum of five directors. At least three directors must be either City or CRA employees and two shall be residents or business owners of the CRA area and represent low income communities.

The RBCDE is the sole member of the Riviera Beach Event Center, LLC (RBEC) which was formed in September 2013 pursuant to the laws of the State of Florida as a limited liability company. The RBEC is also recognized by the Internal Revenue Service as a tax-exempt organization under section 501 (c) (3) of the Internal Revenue Code. The purpose of the RBCDE is to facilitate the redevelopment and improvement of areas of blight and deterioration within the municipal limits of the City and to own and operate a community facility open to the public. These entities are part of a combined New Markets Tax Credit financing redevelopment of the Marina and to provide a community event center for the residents, businesses and visitors of the City.

Separate financial statements are issued for the RBCDE and the RBEC. The statements may be obtained from the Riviera Beach Community Redevelopment Agency, 600 West Blue Heron Boulevard, Riviera Beach, Florida 33404.

*Principles of Consolidation* - The RBCDE and RBEC are consolidated and all material intercompany transactions and balances have been eliminated in consolidation. In accordance with standards prescribed by the Financial Accounting Standards Board (FASB), the RBCDE evaluated its interests and determined that based on the rights afforded to it in the agreements, the RBCDE controls the RBEC and both entities have been consolidated in its statements. The financial statements for the RBCDE and RBEC are included in the Agency's financial statements for fiscal year ended September 30, 2021.

### **Measurement Focus, Basis of Accounting and Financial Statement Presentation**

Government-wide financial statements include the Statement of Net Position and Statement of Activities. These statements present summaries of governmental activities for the Agency. The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Assets and liabilities, including long-term liabilities, are included in the Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, and then use unrestricted resources, when needed and as appropriate.

**Notes to the Basic Financial Statements**  
September 30, 2022

Fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period, or soon thereafter, to pay for liabilities of the current period.

For this purpose, the Agency considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Incremental property taxes, interest income, and certain loan repayments are susceptible to accrual. Other revenues that are generally not measurable until actually received are not accrued. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payments are due.

The General Fund is the Agency's primary operating fund which accounts for all financial resources of the general government, except those required to be accounted for in another fund.

**Capital Assets**

Capital assets are reported in the government-wide financial statements. Capital assets are defined by the Agency as assets with an initial, individual cost of more than \$750 and an estimated useful life in excess of one year. Capital assets which are purchased or acquired are carried at historical cost or estimated historical cost and capital assets which are donated or contributed are recorded at estimated fair value on the date received.

The costs of normal maintenance and repairs are charged to operations as incurred. Outlays for capital assets and improvements are capitalized as projects are constructed and depreciated over the remaining useful lives of the related assets, as applicable. Depreciation is computed using the straight-line method over the following estimated useful lives:

Buildings and improvements	10 to 40 years
Furniture, fixtures and equipment	3 to 10 years

**Right to use assets**

The Agency has recorded right to use lease assets a result of implementing GASB 87. The right to use assets are usually measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, plus ancillary charges necessary to place the lease into service. The right to use assets are amortized on a straight-line basis over the life of the related lease.

**Restricted Assets**

Restricted assets represent developer deposits held in escrow and cash restricted for capital improvements. Proceeds of revenue bonds are set aside in accordance with bond covenants or by ordinance are classified as restricted assets. Restricted long-term assets are not required to be presented on the balance sheets of governmental funds under the modified accrual basis of accounting; however, certain assets are restricted as to their use. Such assets include debt proceeds and amounts held for debt service.

**Notes to the Basic Financial Statements**

September 30, 2022

### **Compensated Absences**

Regular full-time employees may accumulate, within certain limits, sick leave annually. A liability is accrued for unused vacation leave at year end. Sick leave is accrued as a liability as the benefits are earned by the employee only to the extent that it is probable that the employee will be compensated for the benefits upon termination or retirement. Compensated absences are accrued when earned in the government-wide and enterprise fund financial statements. Compensated absences liability is calculated based on the salary rate in effect at year end. In the government-wide financial statements, compensated absences liability is classified into two components - amounts due within one year (current portion) and amounts due in more than one year (non-current portion).

### **Long-Term Obligations**

Long-term debt and other long-term obligations are reported as liabilities in the government-wide and proprietary fund type Statement of Net Position. Bonds payable are reported net of bond premiums or discounts and deferred refunding amounts. Premiums, discounts, and issuance costs are amortized over the life of the bonds using the effective interest method. Deferred amounts on refunding are amortized over the shorter of the remaining life of the old debt or the life of the new debt using the straight-line method, which does not result in a material difference from the effective interest method. Costs of issuing bonds and deferred charges on refunding bonds are capitalized in the governmental activities of the Statement of Net Position.

Governmental funds recognize bond premiums and discounts, as well as issuance costs during the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Debt issuance costs and debt payments are reported as expenditures.

### **Fund Balance Policies**

GASB Statement No. 54, Fund Balance Reporting Governmental Fund Type Definitions, establishes accounting and financial reporting requirements for governmental funds and criteria for classifying fund balances. Accordingly, the governmental fund financial statements report fund equity classifications that comprise a hierarchy based primarily on the extent to which the Agency is legally bound to honor the specific purposes for which amounts in fund balance may be spent. Amounts which are restricted to specific purposes either by a) constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation are classified as fund balances.

Amounts which may be appropriated, modified, or rescinded for specific purposes pursuant to constraints imposed by the Board are classified as committed fund balances. Amounts which are constrained by the intent to be used for specific purposes, but are neither restricted nor committed are classified as assigned fund balances. Fund balances can only be assigned by the Board. Non-spendable fund balances include amounts which cannot be spent because they are either a) not in spendable form; or b) legally or contractually required to be maintained intact.

**Notes to the Basic Financial Statements**

September 30, 2022

Fund balances for governmental funds are displayed in the following classifications depicting the relative strength of the spending constraints placed on the purposes for which resources can be used. The fund balance classifications are summarized below:

Non-spendable - Amounts that cannot be spent because they are a) not in a spendable form; or b) legally or contractually required to remain intact.

Restricted - Amounts that are restricted for specific purposes by a) constraints imposed by external providers; or b) imposed by constitutional provisions or through enabling legislation.

Committed - Amounts for specific purposes pursuant to constraints imposed by the Board.

Assigned - Amounts intended to be used for specific purposes, but are neither restricted nor committed. Assignments of fund balances are made by management based upon the direction of the Board.

Unassigned - Amounts not restricted, committed or assigned to specific purposes.

Committed fund balance is used first, followed by assigned fund balance, and then unassigned fund balance when expenditures are incurred for the purposes for which amounts in any of the unrestricted fund balance classifications may be used.

The Agency uses restricted amounts first when both restricted and unrestricted fund balances are available, unless there are legal agreements that prohibit doing this, such as grant and loan agreements that require dollar for dollar spending. The Executive Director has created assigned fund balance for major program expenses associated with the Marina and the Clean and Safe program.

### **Net position**

Contributions received, if any, are recorded as with or without donor restrictions depending on the existence and/or nature of any donor restrictions. Support that is restricted by the donor is reported as an increase in net position without donor restrictions if the restrictions expire in the reporting period in which the support is recognized. Other donor-restricted support is reported as an increase in net position with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net position with donor restrictions are classified to net position without donor restrictions and reported on the statement of activities as net assets released from restriction. It is the RBCDE's policy to recognize gifts of long-lived assets as unrestricted support in the period in which the assets are placed in service.

### **Use of Estimates**

Management is required to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from management's estimates. Significant estimates used in these financial statements include allowances for uncollectible accounts.

### **Budgets**

The Agency's Board adopts a balanced operating budget and appropriates funds for the General Fund on an annual basis. Appropriations are legally controlled at the object code level and expenditures may not legally exceed budget appropriations.

### **Tax Increment Financing**

In January of each year, the Palm Beach County Property Appraiser's Office and the City of Riviera Beach provide the Agency with an estimated tax increment financing amount. When the final tax roll valuations are issued, the Property Appraiser's Office notifies the Agency of the actual payment and the shortage is remitted to the Agency. If there is an overpayment, a refund is requested from the Agency.

### **Income Taxes**

The RBCDE and RBEC are exempt from income taxes under Section 501 (c) (3) of the IRC, except for income taxes on "unrelated business income," as defined in the IRC. Management believes that all material activities of the RBCDE and the RBEC are not subject to income taxes. The RBCDE and RBEC are required to file and does file tax returns with the IRS and other taxing authorities. Accordingly, the consolidated financial statements of the RBCDE do not reflect a provision for income taxes and the RBCDE and RBEC have no other tax positions which must be considered for disclosure. Income tax returns filed by the RBCDE and RBEC are subject to examination by the IRS for a period of three years. The first year that the RBCDE was required to file tax returns with the IRS was 2014.

### **NOTE 2 – DEPOSITS**

Cash and cash equivalents include cash on hand, amounts in demand and time deposits, and short-term investments with original maturity dates within three months of the date acquired. Deposits are held in qualified public depositories (QPD) pursuant to Florida Statutes, Chapter 280, *Florida Security for Public Deposits Act*. Provisions of the act require that public deposits may only be held at QPD. The Act requires that QPD deposit with the State Treasurer, eligible collateral equal to or in excess of the required collateral as determined by the provisions of the Act. The Treasurer establishes minimum required collateral pledging levels. Collateral must be deposited with an approved financial institution. Potential losses to public depositors are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessments against other QPD of the same type as the depository in default.

### **NOTE 3 – LEASE RECEIVABLE**

For the financial year ended September 30, 2022, the financial statements include the adoption of GASB No. 87 Leases. The primary objective of this statement is to enhance the relevance and consistency of information above governments' leasing activities. This statement establishes a single model for lease accounting based on the principles that leases are financings to the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right to use lease assets, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

The Agency has entered into multiple governmental activities leases as lessor of buildings. For the year September 30, 2022, the value of the lease receivable is \$422,499. - Approximately July 1, the Executive Director submits to the Agency Board a proposed operating budget prepared for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to October 1, the budget is legally enacted through the passage of a resolution.
- Appropriations are legally controlled at the fund level and expenditures may not legally exceed budgeted appropriations.
- For the year ended September 30, 2022, expenditures did not exceed appropriations. Budgetary appropriations for capital outlay were higher than actual expenditures.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors  
Riviera Beach Community Redevelopment Agency

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund information of the Riviera Beach Community Redevelopment Agency (the ‘Agency’), a component unit of the City of Riviera Beach, Florida (the ‘City’) as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Agency’s basic financial statements, and have issued our report thereon dated May 08, 2023.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Agency’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Agency’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We have audited the financial statements of the governmental activities, the business-type activities, and each major fund of the Riviera Beach Community Redevelopment Agency (the “Agency”), a component unit of the city of Riviera Beach, Florida (the “City”) for the year ended September 30, 2022. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and, *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated October 28, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

*Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Agency are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during FY 2022. We noted no transactions entered into by the Agency during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management’s knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the Agency’s financial statements was (were):

Management’s estimate of the useful life of capital assets is based on the straight-line depreciation method. We evaluated the key factors and assumptions used to develop the useful life of capital assets in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure(s) affecting the financial statements was (were):

The disclosure of Subsequent Events in Note 9 to the financial statements evaluate all events subsequent of September 30, 2022 through the date of the report May 08, 2023).

The financial statement disclosures are neutral, consistent, and clear.

*Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

*Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

*Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

*Management Representations*

We have requested certain representations from management that are included in the management representation letter dated May 08, 2023.

*Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Agency's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

*Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Agency's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the management discussion and analysis and the budgetary information, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Restriction on Use

This information is intended solely for the information and use of the Board of Directors and management of the Agency and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,
