### **INDEPENDENT AUDITORS' REPORT**

To the Board of Supervisors
Tindall Hammock Irrigation and Soil Conservation District:

### **Report on the Audit of the Financial Statements**

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund, and the aggregate remaining fund information of Tindall Hammock Irrigation and Soil Conservation District (the "District"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Tindall Hammock Irrigation and Soil Conservation District, as of September 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tindall Hammock Irrigation and Soil Conservation District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Tindall Hammock Irrigation and Soil Conservation District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud

is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
  due to fraud or error, and design and perform audit procedures responsive to those risks.
   Such procedures include examining, on a test basis, evidence regarding the amounts and
  disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of Tindall Hammock Irrigation and Soil Conservation District's
  internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
  accounting estimates made by management, as well as evaluate the overall presentation of
  the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Tindall Hammock Irrigation and Soil Conservation District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-10 and 33-37, respectively, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2023, on our consideration of the Tindall Hammock Irrigation and Soil Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Tindall Hammock Irrigation and Soil Conservation District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tindall Hammock Irrigation and Soil Conservation District's internal control over financial reporting and compliance.

June 30, 2023

Lerro Sorbey, PLLC

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

The management of Tindall Hammock Irrigation and Soil Conservation District (the "District") would like to provide readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended September 30, 2022. Readers are encouraged to consider the information presented in this discussion and analysis in conjunction with the District's basic financial statements, which are contained herein and commence on page 11.

Prior to discussing the financial position of the District, the following information is offered to the readers. The Tindall Hammock Irrigation and Soil Conservation District exists pursuant to the provisions of Ch. 98-523, Laws of Florida, as amended, a Special Act of the Florida Legislature. The District was originally formed in 1951 and as of September 30, 2022 the District managed approximately 780 acres in central Broward County, Florida, and served a population of approximately 3,200 residents. The District, a special purpose unit of local government, has powers to manage stormwater, and exercise flood control, as well as own and operate utilities. Such powers include the ability to borrow money, and issue bonds or other evidences of indebtedness, to assess and levy upon all the lands in the District annual drainage, administrative and maintenance taxes, and to install and foreclose special assessment liens.

The District also provides water and sewer services to approximately 735 and 700 customers, respectively.

#### **FINANCIAL HIGHLIGHTS**

As of September 30, 2022, the District's total assets exceeded total liabilities by \$27,593,855 (net position). Unrestricted net position for government activities was \$10,367,579 and \$(2,631,797) for business-type activities. The restricted net position for the impact fee fund was \$1,607,879.

For the year ended September 30, 2022, government activities revenues totaled \$1,179,022 while governmental activities expenses totaled \$639,560. Business-type operating revenues totaled \$3,499,706. Business-type expenses totaled \$2,859,766. Impact fee revenues totaled \$561,492. No impact fee expenses were incurred for the year ended September 30, 2022.

### **DISTRICT HIGHLIGHTS**

For fiscal year 2022 the District decreased the millage rate from 1.5825 mills to the rolled-back rate of 1.5159 mills. There was no effective increase in ad valorem taxes in fiscal 2022.

During the 2022 fiscal year, the District completed the following capital improvement projects:

- The District completed several improvements to the storm water system during the fiscal year. The most notable was the completion of the relocation of the south pump in its entirety. As of September 30, 2022, the pump and permanent generator were installed. The permanent power feed from Florida Power & Light to the permanent generator was completed.
- The District budgeted for the replacement of the north pump and the process of design and analysis has begun. The fiscal year budget also includes funding for additional bank stabilization as needed.
- The District continued developing, permitting and implementing plans for phase II of the District's capital plan for the utility, which were incorporated in the fiscal year 2022 budget, including significant repairs and deferred maintenance of several components of the older utility plant to provide proper redundancy.
- The final components of the phase II wastewater plant improvements project, including lift station telemetry, were completed in fiscal 2022. For the high service pump improvements project, the project is approximately ninety percent (90%) complete with instrumentation and electrical work continuing into the next fiscal year.

### **DISTRICT HIGHLIGHTS** (continued)

- During the budgeting process, several other projects, including painting of the entire plant, installation of new pressure sustaining valves, an interconnect with the Town of Davie, sludge drying beds and filter monitoring instrumentations were identified and funds were approved and budgeted in fiscal 2022 to begin the process of design and analysis. No funds were expended for these projects in fiscal 2022. Instead, the District anticipates beginning these projects at some point in the future. The District also decided to move forward with the installation of a master meter in one development in lieu of individually billing the residents, which should be completed next fiscal year.
- The District completed the Wastewater Needs Analysis report which was submitted to Broward County for transmittal to the state. The District also contracted for a feasibility study for a deep injection well. The report was accepted and permitting for the well project has begun. The application to the Florida Department of Environmental Protection is being prepared for submission in the upcoming fiscal year.
- The five-year storm water recertification process was ongoing, with one five-year renewal certification completed during the fiscal year. In addition, there were two applications for permits or new certifications completed during the year involving storm water drainage and two development reviews and inspections for water and sewer services. The District continued in fiscal 2022 with the permitting process and related work involving utility easements for new developments within the utility service area.
- The FDEP operational permit is in place until August 2024.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The government-wide financial statements present an overall picture of the District's financial position and results of operations. The fund financial statements present financial information for the District's major funds. The notes to the basic financial statements provide additional information concerning the District's finances that are not disclosed in the government-wide or fund financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **Government-wide financial statements**

The government-wide financial statements include the Statement of net position and the Statement of activities. These statements use accounting methods similar to those used by private sector companies. Emphasis is placed on the net position of government activities and business-type activities and the change in net position. Government activities are primarily supported by assessments and property taxes. Business-type activities are supported by charges to the users of those activities, such as water and sewer services.

The Statement of net position presents information on all assets, deferred outflows of resources, deferred inflows of resources and liabilities of the District, with the reported as net position. Net position is reported in three categories: 1) investment in capital assets, net of any related debt; 2) restricted; and 3) unrestricted. Assets, liabilities, and net position are reported for all government activities separate from the assets, liabilities, and net position of business-type activities.

### **OVERVIEW OF THE FINANCIAL STATEMENTS** (continued)

The Statement of activities presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program. Revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as government activities or business-type activities. Government activities by the District include physical environment and general government. Business-type activities include user charges for water and sewer services

#### **Fund financial statements**

Fund financial statements present financial information for governmental funds and proprietary funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the assets and liabilities of the fund, changes in current financial resources (revenues and expenditures), and available resources. Enterprise fund financial statements provide information on all assets and liabilities of the funds, changes in the economic resources (revenues and expenses), and total economic resources of the water and sewer fund.

Fund financial statements include a balance sheet and a statement of revenues, expenditures, and changes in fund balance for all governmental funds. A statement of revenues, expenditures, and changes in fund balance - budget and actual, is provided for the District's general fund. For the enterprise fund, a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows are presented. Fund financial statements provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses and comply with legal requirements.

The government-wide financial statements and the fund financial statements provide different pictures of the District. The government-wide financial statements provide an overall picture of the District's financial standing, split between government activities and business-type activities. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including buildings, machinery and equipment, and infrastructure are reported in the Statement of net position. All liabilities, including principal outstanding on debt, and future employee benefits, obligated but not paid by the District, are included. The Statement of activities includes provision for depreciation of all long-lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid duplicating related revenues and expenses.

The fund financial statements provide a picture of the major funds of the District. In the case of governmental activities, outlays for long-lived assets are reported as expenditures, and long-term liabilities, such as bonds, are not included in the fund financial statements. To provide an understanding of the differences between the fund financial statements and the government-wide financial statements, a reconciliation is provided.

### Notes to the basic financial statements

The notes provide additional detail concerning the financial activities and financial balances of the District, information about the accounting practices of the District, investments of the District, and any long-term debt. It is important for readers to obtain a full understanding of these notes as they contain important information related to the financial statements.

#### THE DISTRICT AS A WHOLE

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Tindall Hammock Irrigation and Soil Conservation District, assets exceeded liabilities by \$27,593,855 at year-end. The largest portion of the District's net position (66.14%) reflects its investments in capital assets (land, buildings, machinery and equipment, and infrastructure). The District uses capital assets to provide services to property owners, residents and businesses; accordingly, these assets are not available for future spending.

The District adopted the fiscal year 2021-2022 general and proprietary fund budgets on September 22, 2021. The District made no amendments to the budget during the fiscal year. Total general fund expenditures budgeted for the fiscal year ended September 30, 2022, were \$740,002 which excludes capital or proprietary expenditures versus total actual budgetary basis expenditures of \$562,820. The significant difference between budgeted and actual budgetary basis expenditures was largely due to legal expenses, certain machinery, equipment and infrastructure expenditures, hurricane, and contingency events that were budgeted but not yet expended. Total proprietary fund expenditures budgeted for the fiscal year ended September 30, 2022, were \$2,250,595, while the actual proprietary budgetary basis fund expenditures were \$2,117,404. The most significant favorable variance occurred in the purchased water and sewer treatment category due to reduced usage relating to the closure of a mobile home park in the service area and its conversion to industrial-use thereby incurring less water and sewer usage. Capital expenditures relating to the Fern Crest water and wastewater improvements for the fiscal year 2021-2022 were \$607,186. Due to the uncertainty of the timing of new development activities within the District boundaries, impact fees of \$561,036 were assessed during the fiscal year despite no related budgeted revenues.

### **GOVERNMENT-WIDE FINANCIAL POSITION**

As noted earlier, net position may serve over time as a useful indicator of financial position. The following tables reflect the condensed government-wide statement of net position as of September 30, 2022 and 2021.

[Balance of page intentionally left blank]

**NOTES TO FINANCIAL STATEMENTS** 

### (1) DESCRIPTION OF THE TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT

The Tindall Hammock Irrigation and Soil Conservation District (the "District") exists pursuant to the provisions of Chapter 98-523, Laws of Florida, as amended, a Special Act of the Florida Legislature. The District was originally formed in 1951 and includes approximately 780 acres in central Broward County, Florida.

The District is a special purpose unit of a local government with powers primarily in the areas of stormwater management, flood control, and utility ownership and operation. Such powers include rights to borrow money and issue bonds or other evidences of indebtedness, assess and impose assessments upon all the lands in the District for annual drainage, administrative, and maintenance taxes and impose and foreclose on special assessment liens.

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles ("GAAP") as applied to government units. The Government Accounting Standards Board ("GASB") is the standard-setting body for establishing government accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

### (a) Reporting Entity and Financial Reporting

The District follows the standards promulgated by GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, to define the reporting entity. The District's financial statements include operations for which the District exercises oversight responsibility. Oversight responsibility is demonstrated by financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The District has not identified any component units and is not a participant in any joint-venture; accordingly, operations of no other entities have been included in the financial statements.

The District follows the requirements of GASB Statement No. 54 Fund Balance Reporting and Governmental Fund Type Definitions ("GASB 54"). The District also follows the requirements of GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments ("GASB 34") and Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position ("GASB 63"), which incorporates deferred outflows and deferred inflows of resources into the definitions of the required components of the residual measure of net position. The District did not have any deferred outflows or deferred inflows of resources as of September 30, 2022.

### (b) Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The government-wide statements focus on the District as a whole, while the fund financial statements focus on major individual funds.

The government-wide financial statements include a Statements of net position and a Statements of activities. These statements report information on all activities of the District. Inter-fund activity has been eliminated from these statements. The Statement of activities demonstrates the extent to which the expenses of the District are offset by the revenues collected by the District. Revenues collected include investment income earned during the year. The District's policy is to apply restricted resources before unrestricted resources when an expense is incurred for which both restricted and unrestricted assets are available.

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Separate financial statements are provided by governmental fund. Major governmental funds are reported as separate columns in the fund financial statements. The governmental fund statements reflect amounts due from/to other funds. These amounts represent transfers repaid in the future period.

### (c) Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Revenues are considered to be measurable and available when the cash flow from the revenue can be reasonably estimated and they are available to pay liabilities of the current period. For this purpose, the District considers maintenance taxes to be available if they are collected within sixty days of the end of the current fiscal period. A one-year availability period is used for all other revenues.

Revenues susceptible to accrual are maintenance taxes and interest on investments. Maintenance taxes are recorded as revenues in the fiscal year they are levied, provided they are collected in the current period or within sixty days thereafter. Interest on invested funds is recognized when earned.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences, claims and judgments are recorded only when payment is due.

Proprietary funds focus on the flow of economic resources recognized on the accrual basis of accounting. These funds account for all assets and liabilities related to their operations. Revenue is recognized when earned, and expenses are recognized when incurred.

### (d) Major Funds

### **Governmental Fund Type**

Governmental funds are used to account for the District's expendable financial resources and related liabilities. The following are the District's governmental fund types:

General Fund - The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund, for purposes of maintaining control over resources for specific activities or objectives, or to ensure compliance with finance-related legal requirements.

Impact Fee Fund – The impact fee fund is a restricted fund. It is used to account for all fees and associated expenditures relating to impact fees charged for water and sewer services.

#### **Proprietary Fund Type**

Proprietary funds are used to account for activities that receive significant support from business-type activities financed by self-generated revenues. The District currently has the following proprietary fund:

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Water and Sewer Fund - The water and sewer fund is an enterprise fund established to account for operations that are to be financed and operated in a manner similar to private business enterprises. The costs of providing services to customers are to be recovered primarily through user charges.

### (e) Budgetary Procedures and Accounting

An annual budget is adopted for the general fund on a basis consistent with GAAP, with the exception that the budgets include encumbrances as the equivalent of expenditures, and do not include revenues and expenditures related to certain special projects.

Prior to the end of the fiscal year, the District's chairman, in conjunction with the District's management company and the District's attorney, submits to the Board of Supervisors (the "Board") the proposed budget for the fiscal year commencing October 1st. The District holds workshops and public hearings, as required, on the proposed budget. Prior to the end of each fiscal year, the budget is formally adopted for the ensuing year.

The legal level of control, the level at which expenditures may not exceed the budget, is at the total expenditure level. Appropriations lapse at year end. Should additional expenditures be necessary during the year, the District has the authority to modify the budget by a majority vote of the Board.

### (f) Encumbrances

For governments that use encumbrance accounting, significant encumbrances should be disclosed in the notes to the financial statements by major funds and non-major funds, in the aggregate, in conjunction with required disclosures about other significant commitments.

Encumbered amounts for specific purposes for which resources already have been restricted, committed, or assigned should not result in separate display of the encumbered amounts within those classifications. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed, or assigned are included within the committed or assigned fund balance. As of September 30, 2022, outstanding encumbrances amounted to \$402,542.

### (g) Cash and Cash Equivalents

For purposes of the Statement of cash flows – proprietary fund, the District considers all highly liquid investments, including restricted assets, with an initial maturity of three months or less when purchased to be cash equivalents.

### (h) Accounts Receivable

Accounts receivable reflected in the proprietary enterprise fund consist of amounts due from customers for water and sewer services, less an estimate made for doubtful accounts based on management's best estimate of probable losses inherent in the accounts receivable balance. Management determines the allowance for doubtful accounts by regularly evaluating historical experience and current economic conditions. Accounts receivable are written off when deemed uncollectible. As of September 30, 2022, an allowance for doubtful accounts was recorded in the amount of \$19,858.

### (i) Capital Assets and Depreciation – Government-Wide Financial Statements

Capital assets, which include land, buildings, infrastructure, machinery and equipment and construction-in-progress are reported in the government-wide financial statements. All capital assets are recorded at historical cost or estimated historical cost when actual historical cost is not available.

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Donated and awarded capital assets are recorded at their estimated fair market value on the date donated or when awarded by the courts. Consistent with Florida state statutes, the District defines capital assets as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Maintenance, repairs, and minor renovations are not capitalized. Expenditures that materially increase values or extend useful lives are capitalized. There are no idle or impaired capital assets as of September 30, 2022.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| <u>Asset</u>                          | <u>Years</u> |
|---------------------------------------|--------------|
| Equipment                             | 5-7          |
| Water and sewer equipment             | 5-7          |
| Water and sewer infrastructure        | 15-40        |
| Water Control Structures              | 15-50        |
| (including storm water pump stations) |              |

Canals and lakes are considered to be land improvements and, therefore, are not depreciated. Depreciation expense is reflected in the Statement of activities in accordance with GASB 34.

### (j) Goodwill

The District has elected not to amortize goodwill, instead goodwill is tested for impairment when a triggering event occurs indicating the fair value of the asset may be below its carrying amount, consistent with Accounting Standard Codification 350 *Intangibles – Goodwill and Other*. For the year ended September 30, 2022 there were no such events, and therefore no impairment to goodwill has been recorded.

### (k) Advance To and From Other Funds

Short-term inter-fund transactions, when applicable, are recorded by the lending fund as a receivable with a corresponding payable recorded by the borrowing fund. Repayments reduce the corresponding receivable and payable. Inter-fund balances are eliminated in the government-wide financial statements. As of September 30, 2022, the proprietary fund owed the general fund \$4,404,032, representing a working capital transfer from the general fund to the water and sewer fund and reported as Advance to water and sewer fund in the accompanying Balance sheet – governmental fund and Advance from general fund in the accompanying Balance sheet – proprietary fund.

### (I) Compensated Absences

The full-time employees of the District may carryover to the following fiscal year all of their cumulative unused vacation benefits. Vacation time is earned based upon length of service, up to a maximum amount of five weeks per year, once the employee has completed twenty-five years of service with the District, with the exception of certain employees covered by employment agreements. At September 30, 2022, the liability for accrued compensated absences was \$20,799, and is included in Contracts payable in the accompanying Balance sheet – proprietary fund.

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### (m) Fund Balance

GASB 54 classifies fund balances as follows:

Non-Spendable Fund Balances – Non-spendable fund balances include amounts not in spendable form, such as prepaid amounts and advances to other funds, and amounts required to be maintained intact legally or contractually. As of September 30, 2022, the District had non-spendable fund balances of \$4,404,032.

Restricted Fund Balances – Restricted fund balances include amounts constrained for a specific purpose by external parties. As of September 30, 2022, the impact fee fund had restricted funds of \$1,607,879.

Committed Fund Balances – Committed fund balances include amounts constrained for a specific purpose determined by a formal action or ordinance by a government using its highest level of decision-making authority. As of September 30, 2022, the District had no committed fund balances.

Assigned Fund Balances – Assigned fund balances include general fund amounts constrained for a specific purpose by the District's Board. As of September 30, 2022, the general fund had assigned fund balances of \$2,857,875.

Unassigned Fund Balance – Unassigned fund balance represents the residual classification for the general fund. As of September 30, 2022, the general fund had an unassigned fund balance of \$3,105,672.

The District's Board approves all transactions that occur with respect to the restricted and committed fund balances, as adopted by the Board in accordance with GASB 54.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources are expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

GASB 54 does not apply to the District's proprietary enterprise funds.

### (n) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

### (o) Impact of Recently Issued Accounting Pronouncements

The District has not yet determined the impact of GASB pronouncements No. 91, 94, 96, 100 and 101 which have been issued but are not yet effective and have not been implemented.

### (3) CASH AND CASH EQUIVALENTS

Cash and cash equivalents as of September 30, 2022, are comprised of the following:

Cash deposits:

Demand deposit accounts 8,443,497
Petty cash 704

Total cash deposits \$ 8,444,201

All of the District's cash deposits are held in accounts at depository institutions which are recognized as State of Florida Qualified Public Depositories in accordance with state statutes, which, in addition to being insured by the Federal Deposit Insurance Corporation ("FDIC") to \$250,000, are secured by collateralized securities as required under Chapter 280, of the Florida Statutes. At September 30, 2022, deposits with banks exceeded the FDIC limit by approximately \$7,944,000. The District has not experienced, nor does it anticipate, any losses in such accounts.

Following is the percentage allocation of cash and cash equivalents by depository institution as of September 30, 2022:

Institution Percentage of Total

BB&T 59.79%
Bank United 40.21%

### (4) MAINTENANCE TAXES AND SPECIAL ASSESSMENTS

Maintenance taxes and special assessments attach as an enforceable lien on the owners' property as of January 1st of each year. The taxes are levied on November 1st for that calendar year and are payable, without penalty, from November 1st to the following March 31st. Broward County bills and collects these taxes and assessments and remits these proceeds to the District. Payments made after March 31, are subject to late payment fines. Any amount unpaid as of June 30th, results in a tax certificate sale to investors. The District receives its share of the certificate sale, which generally represents the full amount due to the District. There were no material delinquent taxes as of September 30, 2022.

### (5) CAPITAL ASSETS

The following summarizes changes in the capital assets:

|  | Balance      |             |           | Balance      |
|--|--------------|-------------|-----------|--------------|

## TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT Notes to Financial Statements September 30, 2022

#### (6) RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the District carries commercial insurance.

#### (7) WATER AND WASTEWATER UTILITY SYSTEM

Resolution 2008-20 authorizes the issuance of up to a total of \$15,000,000 aggregate principal amount of Tindall Hammock Irrigation and Soil Conservation District (Davie, Florida) Ad Valorem Tax Bonds, Series 2008 (the "Series 2008 Bonds"). As of September 30, 2022 and through June 30, 2023, the date on which the financial statements were available to be issued, the District had not yet issued any bonds authorized under the resolution.

The District's utility service area is located within the Town of Davie (the "Town"). The Town has approved certain land use amendments, and the redevelopment of several larger parcels within the District has led to an increase in both service revenue and taxable value in the current year. As a result of the increasing taxable values the District has been able to reduce the millage rate from the maximum of 6.000 mills in fiscal year 2014 to the current rate of 1.5159 mills for fiscal year 2022. The continuing redevelopment is expected to increase both service revenue and taxable values for several years. The combination of these conditions may provide for further decreases in the millage rate upon completion of the capital improvement plan.

#### (8) UTILITY PLANT ACCESS

Access to the utility plant is through another property owner's private streets, as the property on which the plant is located is surrounded by such other property owner's land and development. The District has not been able to obtain a recorded ingress and egress to the plant, however, access has historically been made available through these private streets and as of June 30, 2023, the date on which the financial statements were available to be issued, the property owner has made no demands to the District to cease using this access.

#### (9) REGULATORY ISSUES

The District is engaged in certain environmental and regulatory issues that are applicable to the manner in which the District operates its drainage systems and its water and sewer system. The District has approved a multi-year Capital Improvement Program ("CIP") which when completed is intended to make all of the District systems compliant with current regulations. The District began implementing the CIP in fiscal year 2014 with the issuance of a bid request and continues in its compliance efforts.

#### (10) RELATED PARTIES

In accordance with Special Act of the Legislature (Chapter 98-523, Laws of Florida, as amended), the District Board is elected by the owners of land within the District, with each landowner's vote being based on the number of acres owned by such landowner. A significant portion of the land within the District is owned by members of the Board and related parties.

## TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT Notes to Financial Statements September 30, 2022

#### (10) RELATED PARTIES (continued)

As a result, certain issues come before the District Board from time to time involving the District and these related parties. When such issues come before the Board, the District obtains opinions and recommendations of third parties in order to appropriately address and vote on any such issues.

On November 3, 2008, the District entered into an amended and restated lease agreement, with a related party allowing the District to discharge and dispose treated wastewater in accordance with its wastewater and disposal system permit issued by the Florida Department of Environmental Protection into a man-made rockpit owned by the related party. The lease has been classified as an operating lease since inception, and currently calls for minimum lease payments of \$3,214 per month. The District incurred approximately \$38,565 in lease expense for the period ended September 30, 2022.

#### (11) SUBSEQUENT EVENTS

The District has performed an evaluation of subsequent events through June 30, 2023, which is the date the financial statements were available for issue.

#### TINDALL HAMMOCK IRRIGATION AND SOIL CONSERVATION DISTRICT

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS For the year ended September 30, 2022

### 1499 West Palmetto Park Road, Suite 107 • Boca Raton, FL 33486 701 East Commercial Blvd, Suite 300 • Fort Lauderdale, FL 33334

## INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Supervisors
Tindall Hammock Irrigation and Soil Conservation District:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund and the aggregate remaining fund information of Tindall Hammock Irrigation and Soil Conservation District (the "District"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 30, 2023.

#### **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, administrative rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

Leno Sobey, PLLC

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' MANAGEMENT LETTER REQUIRED BY CHAPTER 10.550, RULES OF THE STATE OF FLORIDA OFFICE OF THE AUDITOR GENERAL For the year ended September 30, 2022

### 1499 West Palmetto Park Road, Suite 107 • Boca Raton, FL 33486 701 East Commercial Blvd, Suite 300 • Fort Lauderdale, FL 33334

## INDEPENDENT AUDITORS' MANAGEMENT LETTER REQUIRED BY CHAPTER 10.550, RULES OF THE STATE OF FLORIDA OFFICE OF THE AUDITOR GENERAL

To the Board of Supervisors
Tindall Hammock Irrigation and Soil Conservation District:

#### **Report on the Financial Statements**

We have audited the financial statements of the Tindall Hammock Irrigation and Soil Conservation District, located in Davie, Florida, as of and for the year ended September 30, 2022, and have issued our report thereon dated June 30, 2023.

#### **Auditors' Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

#### **Other Reporting Requirements**

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*. Disclosures in those reports, if any, which are dated June 30, 2023, should be considered in conjunction with this management letter.

#### **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no corrective actions or recommendations made in the preceding annual financial report that need to be discussed in the current management letter.

#### Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Tindall Hammock Irrigation and Soil Conservation District was originally established pursuant to the provisions of Chapter 98-523, a Special Act of the Florida Legislature in 1951. There are no component units of the Tindall Hammock Irrigation and Soil Conservation District to be disclosed as required by accounting principles generally accepted in the United States of America.

#### **Financial Condition and Management**

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Tindall Hammock Irrigation and Soil Conservation District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the Tindall Hammock Irrigation and Soil Conservation District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Tindall Hammock Irrigation and Soil Conservation District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same as of September 30, 2022, and through the date of our audit report, June 30, 2023.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

#### **Monthly Financial Statements**

Sections 10.554(1)(i)9.a. and 10.556(9), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District provided monthly financial statements to its governing board and has made such financial statements available for public access on the District's website. In connection with our audit, we determined that the District provided monthly financial statements to its governing board and made such monthly financial statements available for public access on its website.

#### **Transparency**

Sections 10.554(1)(i)9.b. and 10.556(9), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether the District provided a link on its website to the Florida Department of Financial Servicers' website to view the District's annual financial report submitted to the Department. In connection with our audit, we determined that the District provided a link on its website to the Florida Department of Financial Service's website.

Section 10.554(1)(i)9.c.and 10.556(9), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether the District posted its tentative and final budgets on its website. In connection with our audit, we determined that the District posted its tentative and final budgets on its website.

#### **Specific Information (unaudited)**

Tindall Hammock Irrigation and Soil Conservation District (the "District") has reported the following information (unaudited):

 Total number of District employees compensated in the last pay period of the District's fiscal year ended September 30, 2022:

12

• Total number of independent contractors to whom nonemployee compensation was paid in September 2022:

15

 All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency for fiscal year ended September 30, 2022:

739,847

 All compensation earned by or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency for fiscal year ended September 30, 2022:

\$ 1,041,009

| Projects | Expenditures |  |  |
|----------|--------------|--|--|
| None     | -<br>\$ -    |  |  |

Budget variance report:

See pages 33-37 of annual financial statements for fiscal year ended September 30, 2022

 Ad valorem taxes collected by or on behalf of and millage rates imposed by the District for fiscal year ended September 30, 2022:

| Category                           | Rate Unit | <u>Millage Rate</u> |
|------------------------------------|-----------|---------------------|
| Ad valorem tax                     | Rate      | \$ 1.5159           |
| Non-ad valorem special assessments | None      | None                |
| Outstanding bonds issued           | None      | None                |

#### **Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we communicate noncompliance with provisions of contracts or grant agreements, or abuse, that has occurred, or is likely to have occurred, that has an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

#### **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General the Board of Supervisors of Tindall Hammock Irrigation and Soil Conservation District, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.
