Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Parrish Fire District, Florida (the District), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedules of proportionate share of net pension liability, and contributions and notes, as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of state financial assistance as required by the Florida Single Audit Act and Chapter 10.550, Rules of the Auditor General, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of state financial assistance is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included with the basic financial statements. The other information comprises the schedule of fire assessment rates on pages 38-40 and the impact fee affidavit on page 52, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 13, 2025 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Parrish Fire District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended September 30, 2024.

Financial Highlights

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$3,264,741 (*net position*).
- The District's total net position increased by \$2,150,250. Total revenues increased from the prior year by \$2,529,792 mainly due to fire assessments and grants. Total expenses increased \$183,305 from the prior year mainly due to fire services costs.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$3,108,692 an increase of \$883,773 from the prior year. Of this total amount, \$886,958 is impact fees, which are restricted, \$963,115 is for a debt service sinking fund, which is restricted, \$100,000 is assigned fund balance and \$1,057,074 is *available for spending* at the District's discretion (*unassigned fund balance*).

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Parrish Fire District's financial statements. The District's financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and deferred outflows and liabilities and deferred inflows, with the difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected revenues and earned but unused vacation and sick leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by fire assessments, impact fees and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The District is engaged in only governmental activities. The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting.

The government-wide financial statements can be found on pages 10 and 11 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds.

Governmental funds. Governmental funds focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. These funds are reported using the modified accrual method of accounting and the current financial resources focus. As a result, long-term assets and liabilities are not included. The District uses a Governmental Fund and a Capital Projects Fund. The General Fund is the general operating fund. All general tax revenues are accounted for in this fund. From this fund all general operating expenditures and personal service expenditures, as well as budgeted capital outlay are paid. The Capital Projects Fund is used to account for impact fees collected on new construction. These revenues can only be used for the acquisition, construction or purchase of assets required to provide fire protection and emergency services to new users of the District.

A reconciliation to facilitate the comparison between the governmental fund financial statements and the government-wide financial statements is presented.

The District adopts an annual budget for its General Fund and Capital Projects Fund. A budgetary comparison statement has been provided for both to demonstrate compliance with this budget.

The governmental fund financial statements can be found on pages 12 to 15 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 16 of this report.

Government–Wide Financial Analysis

As noted, net position may serve over time as a useful indicator of a government’s financial position. In the case of the Parrish Fire District, assets and deferred outflows exceeded liabilities and deferred inflows by \$3,264,741 at the close of the most recent fiscal year.

A significant portion of the District’s net position \$3,334,740 reflects its net investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide fire protection and emergency services to citizens within the boundaries of the District; consequently, these assets are *not* available for future spending. Although the District’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The District also had significant assets in cash and cash equivalents at year–end.

The following table presents a condensed statement of net assets as of September 30, 2024 with comparable totals as of September 30, 2023:

Net Position

	Governmental Activities 2024	Governmental Activities 2023
Current and other assets	\$ 3,255,606	\$ 2,395,588
Capital assets	8,846,484	9,197,637
Total assets	<u>12,102,090</u>	<u>11,593,225</u>
Deferred outflows of pension resources	1,934,775	1,260,863
Long–term liabilities outstanding	10,259,607	11,266,824
Other liabilities	146,914	369,437
Total liabilities	<u>10,406,521</u>	<u>11,636,261</u>
Deferred inflows of pension earnings	365,603	103,336
Net Position:		
Net investment in capital assets	3,334,740	2,017,065
Restricted for:		
Unspent debt proceeds–Series 2021 Note	–	2,526
Debt service sinking fund	963,115	500,000
Impact fees	886,958	681,282
Unrestricted	(1,920,072)	(2,086,382)
Total Net Position	<u><u>\$ 3,264,741</u></u>	<u><u>\$ 1,114,491</u></u>

An additional portion of the District’s net position represents restricted resources from impact fees, unspent debt proceeds and debt service sinking fund. The District has a negative unrestricted remaining net position, (\$1,920,072) due to the District’s proportionate share of the FRS net pension liability, based on the actuarially calculated amount.

The District’s net position increased by \$2,150,250 during the current fiscal year.

The following table presents the change in net position for the year ended September 30, 2024 with comparable totals for the year ended September 30, 2023:

	Changes in Net Position	
	Governmental Activities	Governmental Activities
	2024	2023
Revenues:		
Program revenues:		
Charges for services	\$ 15,034	\$ 8,522
Capital grants	2,012,639	3,144
General revenues:		
Fire assessments	4,022,131	3,404,988
Impact Fees	771,047	784,492
Other	36,003	125,916
Total revenues	<u>6,856,854</u>	<u>4,327,062</u>
Expenses:		
Fire protection services	4,125,568	3,916,242
Depreciation	401,166	402,136
Interest	179,870	204,921
Total expenses	<u>4,706,604</u>	<u>4,523,299</u>
Increase (Decrease) in Net Position	2,150,250	(196,237)
Net Position – Beginning	1,114,491	1,310,728
Net Position – Ending	<u><u>\$ 3,264,741</u></u>	<u><u>\$ 1,114,491</u></u>

- Fire assessments increased by \$617,143 and grants increased \$2,009,495.
- Expenses increased by \$183,305 from the prior year.

Financial Analysis of the Government's Funds

The District utilizes only Governmental Funds, which includes a General Fund and a Capital Projects Fund.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$3,108,692, an increase of \$883,773 in comparison with the prior year. Of this total, \$101,545 is nonspendable (prepaid items), \$1,057,074 is *unassigned fund balance*, and is available for spending at the District's discretion. \$100,000 is assigned for contingency. \$886,958 of fund balance is *restricted* from impact fee revenues, and \$963,115 is restricted for a debt service sinking fund.

The general fund is the operating fund of the District. At the end of the current fiscal year, *unassigned fund balance* in the general fund was \$1,057,074. As a measure of the general fund's liquidity, it may be useful to compare *unassigned fund balance* to total fund expenditures. *Unassigned fund balance* represents approximately 18% of total general fund expenditures.

The fund balance of the District's general fund increased by \$678,097 during the current fiscal year. Total revenues in the general fund were \$6,085,807, which includes fire assessments of \$4,022,131 and grants of \$2,012,639. Fire assessments increased \$617,143 from the prior year. Personal service costs were \$3,292,021, operating costs were \$530,001, capital outlay was \$18,691, and debt service was \$2,049,992. Personal service costs increased \$585,498 and debt service increased due to a grant for the pay down of principal on outstanding debt.

The capital projects fund has a total fund balance of \$886,958, all of which is restricted to the acquisition, construction or purchase of assets required to provide fire protection and emergency services. The increase in fund balance during the current year in the capital projects fund was \$205,676. Revenues were \$771,047, of which were impact fees and expenditures were \$82,376 all of which was capital outlay. Transfers to the general fund were \$482,995.

General Fund Budgetary Highlights

The General Fund budget was amended. Original budgeted revenues were \$3,899,825 and final budgeted revenues were \$5,899,825. Original budgeted expenditures were \$4,473,466 and final budgeted expenditures were \$6,496,166. Significant budget amendments mainly increased grant revenues and debt service expenditures by \$2,000,000. Actual revenues exceeded budgeted revenues by \$185,982. Actual expenditures were less than budgeted by \$605,461.

The General Fund budget is presented as required supplementary information on page 29.

Capital Assets

The District's investment in capital assets amounts to \$8,846,484 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and machinery and equipment. The District's investment in capital assets for the current fiscal year decreased \$351,153 due to additions of \$50,013 and depreciation of \$401,166.

Capital Assets

	Governmental Activities <u>2024</u>	Governmental Activities <u>2023</u>
Land	\$ 321,005	\$ 321,005
Building and improvements	7,916,518	8,136,562
Machinery and equipment	608,961	740,070
Total (net of accumulated depreciation)	<u>\$ 8,846,484</u>	<u>\$ 9,197,637</u>

See note B of this report for additional information on the District's capital assets.

Long-Term Liabilities

Long-term liabilities include a note payable in the amount of \$136,024 for a fire engine and a note payable for the construction of Station 2 and tower in the amount of \$5,375,720, and the District's portion of the net pension liability (NPL) of the Florida Retirement System as calculated by the retirement plan's actuary. The total amount of NPL included as part of the government-wide financial statements is \$4,500,782.

The District also accrues for vacation and sick time pursuant to its policy. That liability at year end is \$247,081.

See note C of this report for additional information on the District's long-term liabilities.

Economic Factors and Next Year's Budgets

The fiscal year 2024-2025 budget includes revenue of \$5,188,784, which includes a budgeted use of carryover in the amount of \$585,832, and expenditures of \$5,188,784. Budgeted general fund expenditures include personal service costs of approximately \$4,131,000.

The District entered into a financing arrangement for a new ladder truck in fiscal year 2025.

These factors were considered in preparing the District's budget for the 2025 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Parrish Fire District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District at, Parrish Fire District, 12132 U.S. Highway 301 North, Parrish, Florida 34219.

RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2024**

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances – total governmental funds	\$	883,773
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital additions		50,013
Depreciation expense		<u>(401,166)</u>
		(351,153)
Governmental funds report principal payments on debt as a use of current financial resources. However, in the governmental wide financial statements the amount is reported as a reduction of debt.		
		1,671,354
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This amount represents the change in:		
Compensated absences		(20,266)
Accrued interest		198,768
Net pension liability		(643,871)
Deferred outflows of pension resources		673,912
Deferred inflows of pension earnings		<u>(262,267)</u>
		<u>(53,724)</u>
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$	<u><u>2,150,250</u></u>

The accompanying notes are an integral part of these financial statements.

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies followed by the Parrish Fire District, Manatee County, Florida:

- (a) Reporting Entity – Parrish Fire District (District) is a public municipal corporation in the State of Florida created by House Bill 336 of the Legislature of the State of Florida in 1985. During 2004, the original bill as amended was codified in Chapter 2004–400 Laws of Florida. The District is an independent special district. No other component units exist.

Revenue is provided by special assessments against taxable real estate lying within the territorial bounds of the District as defined by the State of Florida. Disbursements are made for maintenance and upkeep of the fire stations, purchase of firefighting and rescue equipment, payment of wages, employee benefits, and administrative expenses.

The State of Florida passed legislation, which took effect June 1985, and provides for the District to collect impact fees to defray the cost of improvements required to provide fire and emergency service to the new users of the District. The impact fees collected are to be used exclusively for the acquisition, purchase, or construction of new facilities and equipment required to provide these services to the new users in the District.

- (b) Basis of Presentation – The District’s financial statements include Government-wide financial statements (which report the District as a whole) and Fund financial statements (which report only on the General and Capital Projects Funds). The Financial Statements present only governmental activities, as the District conducts no business type activities. There are no fiduciary funds.

Basis of Accounting Financial Statements – Government Wide Statements– The Government-Wide Financial Statements (Statement of Net Position and Statement of Activities) are prepared using the economic resources measurement focus and the accrual basis of accounting. For the most part, interfund activity has been removed from these statements. Government-wide financial statements include a statement of Net Position and a Statement of Activities. The Statement of Net Position reports all financial and capital resources of the District’s governmental activities. It is presented in a net position format (assets plus deferred outflows less liabilities plus deferred inflows equal net position) and shown with three components: net investment in capital assets, restricted net position and unrestricted net position. The statement of activities reports direct expenses of the program offset by program revenues. Program revenues include charges for services and capital grants. Taxes and other items properly not included in program revenues are reported as general revenues.

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Financial Statements – Fund Financial Statements – The District’s accounts are organized on the basis of funds, which are self-balancing sets of accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures. The District utilizes governmental funds, which follow the modified accrual basis of accounting. Under this method, revenues are recorded when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a fund liability is incurred. The District reports the following governmental funds, which are both considered major funds:

Governmental Funds

- (1) General Fund – The General Fund is the general operating fund of the District. All general tax revenues are accounted for in this Fund. From the Fund are paid the personal service and operating costs, as well as budgeted capital expenditures.
 - (2) Capital Projects Fund – The Capital Projects Fund is used to account for Impact Fees collected on new construction. These revenues can only be used for the acquisition, construction or purchase of assets required to provide fire protection and emergency services to new construction.
- (c) Estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, and deferred inflows, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- (d) Budgets and Budgetary Accounting – The District prepares an annual operating budget for the fiscal year commencing October 1. Prior to September 1 of each year, the Fire Chief prepares a proposed budget for the upcoming fiscal year. The budget is based on an analysis of prior year actual revenues and expenditures along with anticipated spending and revenue sources. Once the proposed budget is compiled, it is brought before the Board of Commissioners for approval. Expenditures should not exceed the total appropriations. Appropriations lapse at the end of the year.
- (e) Interfund Receivables/Payables – Interfund receivables/payables arise from temporary interfund transfers. When a fund has an interfund receivable and an interfund payable to the same fund, the amounts are recorded in separate accounts. Internal activity and balances between governmental funds has been eliminated in the government-wide statement of net position. At September 30, 2024, there were no interfund receivables/payables.

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

- (f) Property Taxes – Property taxes become due and payable on November 1 of each year. The county tax collector remits the District's portion as such revenues are received. The District collects nearly all of its tax revenues during the period November 1 through April 1, at which time the taxes become delinquent. The maximum rates of tax are set by the Legislature of the State of Florida. Actual assessment amounts are based on the square footage of a structure and type of occupancy and is determined by the Board of Commissioners of the District and adopted by County ordinance.

The key dates in the property tax cycle are as follows:

Assessment roll validated	July 1
Beginning of fiscal year for which taxes have been levied	October 1
Tax bills rendered and due	November 1
Property taxes payable:	
Maximum discount	November 30
Delinquent	April 1
Tax certificates sold	May 31
Fiscal year begins	October 1
Fiscal year ends	September 30

Property taxes are recognized as revenue in the fiscal year for which the taxes have been levied to the extent they result in current receivables. Under the system outlined above, no material amount of taxes is receivable after the end of the fiscal year.

- (g) Fund Balance – Governmental Accounting Standards Board Statement (GASB) 54 established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Fund balance classifications, under GASB 54, are Nonspendable and Spendable. Spendable is then further classified as Restricted, Committed, Assigned and Unassigned. These classifications reflect not only the nature of funds, but also provide clarity to the level of restriction placed upon fund balance. Fund Balance can have different levels of restraint, such as external versus internal compliance requirements. Unassigned fund balance is a residual classification within the General Fund. The General Fund should be the only fund that reports a positive unassigned balance.

In accordance with GASB Statement 54, the District classified governmental fund balance as follows:

Nonspendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements.

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

(g) Fund Balance – Continued

Spendable Fund Balance:

- Restricted – includes amounts that can be spent only for specific purposes because of State or Federal laws or enabling legislation, or which are externally restricted by providers, such as creditors or grantors.
- Committed – includes amounts that can be spent only for specific purposes that are approved by a formal action of the Board of Commissioners through a resolution or the budget process.
- Assigned – includes amounts designated for a specific purpose by the Board of Commissioners through a resolution or the budget process, which are neither restricted or committed.
- Unassigned – includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

The District uses restricted amounts first when both restricted and unrestricted fund balance is available, unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made. The District does not have a formal minimum fund balance policy.

	General Fund	Capital Projects Fund
<u>Nonspendable</u>	\$ 101,545	\$ -
<u>Spendable:</u>		
Restricted		
Debt service sinking fund	963,115	-
Impact fees	-	886,958
Assigned – contingency	100,000	-
Unassigned	1,057,074	-
Total Fund Balances	\$ 2,221,734	\$ 886,958

- (h) Cash and Investments – Florida Statute 218.415 authorizes the District to invest in the following:

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

(h) Cash and Investments – Continued

- (a) Local Government Surplus Funds Trust Fund or an intergovernmental investment pool authorized through the Florida Interlocal Cooperation Act.
- (b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating company.
- (c) Interest bearing time deposits or savings accounts in state-certified Qualified Public Depositories as defined in Section 280.02, Florida Statutes.
- (d) Direct obligations of the U.S. Treasury.

The District maintains four cash and cash equivalent accounts. The general fund operating account is unrestricted and available for use as determined by the annual budget. The capital projects fund account includes impact fees and is restricted only to be used for the acquisition, construction or purchase of assets and required to provide fire protection services for new users of the District. The unspent proceeds cash account is from the Series 2021 Note issuance restricted for construction. The District also has established a debt service sinking fund cash account restricted for the payment of principal and interest on the Series 2021 Note. The District's cash consists of bank deposits.

All District bank accounts are with banking institutions that post collateral as required by state statutes (Qualified Public Depositories). As a result, all amounts that exceed FDIC insured limits are collateralized pursuant to Chapter 280 of the Florida Statutes. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, at September 30, 2024, the District only had demand deposits.

- (i) Compensated Absences – It is the District's policy to permit employees to accumulate earned but unused vacation benefits. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured or are payable from current financial resources. Compensated absences typically are liquidated from the General Fund.
- (j) Capital Assets – Capital assets, which include property, plant and equipment, and construction in progress, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$1,000 and an estimated useful life of longer than one year. Capital assets are recorded at historical cost if purchased or constructed.

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

- (j) Capital Assets – Continued – Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal repair and maintenance that do not add to the value of the asset or extend the useful life of the asset are expensed as incurred. The District does not have infrastructure assets.

Property, plant and equipment of the District are depreciated on a straight-line basis over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings	40
Fire engines	10
Vehicles	5
Furniture, fixtures and equipment	3 – 7

- (k) Long-Term Obligations – In the government-wide financial statements, long-term obligations are reported as liabilities. In the fund financial statements, no long-term obligations are reported as they are not due to be paid from current financial resources.
- (l) Restricted Resources – When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed.
- (m) Deferred Outflows/Inflows of Resources – In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. One item qualifies for reporting in this category. A deferred outflow of pension resources is reflected in the government-wide statement of net position.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. A deferred inflow of pension earnings is reported in the government-wide statement of net position.

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE B – CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2024 was:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental Activities				
Capital assets, not being depreciated:				
Land	\$ 321,005	\$ -	\$ -	\$ 321,005
Construction in progress	-	-	-	-
Total capital assets, not being depreciated	<u>321,005</u>	<u>-</u>	<u>-</u>	<u>321,005</u>

Buildings and improvements	8,868,366	-	-	8,868,366
Machinery and equipment	<u>2,390,678</u>	<u>50,013</u>	<u>-</u>	<u>2,440,691</u>
Total capital assets, being depreciated	<u>11,259,044</u>	<u>50,013</u>	<u>-</u>	<u>11,309,057</u>
Less accumulated depreciation for:				
Buildings and improvements	(731,804)	(220,044)	-	(951,848)
Machinery and equipment	<u>(1,650,608)</u>	<u>(181,122)</u>	<u>-</u>	<u>(1,831,730)</u>
Total accumulated depreciation	<u>(2,382,412)</u>	<u>(401,166)</u>	<u>-</u>	<u>(2,783,578)</u>
Total capital assets being depreciated, net	<u>8,876,632</u>	<u>(351,153)</u>	<u>-</u>	<u>8,525,479</u>
Governmental activities capital assets, net	<u>\$ 9,197,637</u>	<u>\$ (351,153)</u>	<u>\$ -</u>	<u>\$ 8,846,484</u>

Depreciation expense was reported as a separate line item in the statement of activities in the amount of \$402,166.

NOTE C – LONG-TERM LIABILITIES

During 2019, the District entered into a direct borrowing financing arrangement for the purchase of a new fire engine. The note is payable in annual installments of \$29,992 with interest at 3.56%. The note matures on August 29, 2029 and is collateralized by a fire engine.

During 2022, the District entered into Capital Improvement Revenue Note, Series 2021 (the note) in the amount of \$7,300,000 for the construction of Fire Station 2 and a training tower. The note is payable in annual installments of \$482,995 with interest at 2.83%. The note matures on October 1, 2041. The District has pledged non-ad valorem fire assessments on the note. The note may be prepaid with a one percent prepayment penalty. The District is required to maintain a debt service sinking fund cash account equal to 100% of the amount due in the forthcoming fiscal year. The following are future annual debt service requirements for direct borrowing debt as of September 30, 2024:

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE C – LONG-TERM LIABILITIES – CONTINUED

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 488,736	\$ 24,251	\$ 512,987
2026	370,057	142,930	512,987
2027	380,720	132,267	512,987
2028	391,692	121,295	512,987
2029	403,816	110,007	513,823
2030–2034	2,034,985	379,990	2,414,975
2035–2039	1,441,738	86,693	1,528,431
	<u>\$ 5,511,744</u>	<u>\$ 997,433</u>	<u>\$ 6,509,177</u>

In the event of default the Owner of the note may pursue all remedies as set forth in the Resolution or note, either at law or in equity, by suit, action, mandamus or other proceeding in any court of competent jurisdiction, protect and enforce any and all rights under the laws of the state, or granted or contained in this Resolution, and may enforce and compel the performance of all duties required by this Resolution or applicable statute to be performed by the Issuer. If payment is received after 5 days after the due date, the interest rate shall increase to the rate of interest borne by the note plus 2%, while payment is in default.

Long-term liability activity was as follows:

	<u>Beginning</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending</u>	<u>Due Within One- Year</u>
Governmental Activities:					
Note Payable–Fire Engine	\$ 159,503	\$ -	\$ (23,479)	\$ 136,024	\$ 25,180
Note Payable – Station 2	7,023,595	-	(1,647,875)	5,375,720	463,556
Net pension liability	3,856,911	2,422,985	(1,779,114)	4,500,782	-
Compensated absences	226,815	129,021	(108,755)	247,081	-
Governmental activity long-term liabilities	<u>\$ 11,266,824</u>	<u>\$ 2,552,006</u>	<u>\$ (3,559,223)</u>	<u>\$ 10,259,607</u>	<u>\$ 488,736</u>

NOTE D – RETIREMENT PLAN

Plan Description

All full-time permanent employees of the District are provided with pensions through the Florida Retirement System which is administered by the Florida Department of Management Services, Division of Retirement. The State of Florida issues a publicly available annual comprehensive financial report that can be obtained at <http://www.myfloridacfo.com/transparency/state-financial-reports/FL-ACFR>.

Under this system, there are two defined benefit pension plans: The Florida Retirement System Pension Plan and the Retiree Health Insurance Subsidy Program:

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE D – RETIREMENT PLAN – CONTINUED

Plan Description – Continued

- The Florida Retirement System (FRS) Pension Plan is a cost-sharing, multiple-employer qualified defined benefit pension plan with a Deferred Retirement Option Program (DROP) available for eligible employees. The FRS was established and is administered in accordance with Chapter 121, Florida Statutes.
- The Retiree Health Insurance Subsidy Program (HIS) is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes.

Benefits Provided

The FRS provides retirees a lifetime pension benefit with joint and survivor payment options. Benefits under FRS are computed on the basis of age and/or years of service, average final compensation and service credit. Credit for each year of service is expressed as a percentage of the average final compensation.

If first employed prior to July 1, 2011: Normal retirement age for “regular” employees is 62 or 30 years of service and vesting occurs after 6 years of creditable service. Normal retirement age for “special risk” employees is 55 or 25 years of service and vesting occurs after 6 years of creditable service. The average final compensation is the average of the five highest fiscal years’ earnings.

If first employed on or after July 1, 2011: Normal retirement age for “regular” employees is 65 or 33 years of service and vesting occurs after 8 years of creditable service. Normal retirement age for “special risk” employees is 60 or 30 years of service and vesting occurs after 8 years of creditable service. The average final compensation is the average of the eight highest fiscal years’ earnings.

The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

Under the HIS Plan, the benefit is a monthly payment to assist retirees in paying their health insurance costs. Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$7.50. The minimum payment is \$45 and the maximum payment is \$225 per month, pursuant to section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree must provide proof of eligible health insurance coverage, which can include Medicare.

Contributions

Per Chapter 121, Florida Statutes, contribution requirements of the active employees and the participating employers are established and may be amended by the Florida Department of Management Services, Division of Retirement. Effective July 1, 2011, both employee and employers of the FRS are required to make contributions to establish service credit for work performed in a regularly established position. The Florida Legislature established a uniform contribution rate system for the FRS. The uniform rates are based on the class an employee is placed into which requires

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE D – RETIREMENT PLAN – CONTINUED

Contributions – Continued

employees to contribute 3% and employers to contribute a specified percentage based on class. The District’s contractually required contribution rate for the year ended September 30, 2024, ranged from 32.67% – 32.79% for special risk employees and 13.57% – 13.63% for regular employees, of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$638,041 for the year ended September 30, 2024.

The HIS Program is funded by required contributions of 2.00% and is included in the contribution rates noted above.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2024, the District reported a liability of \$4,500,782 for its proportionate share of the net pension liability which includes both FRS and HIS. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2024, the District’s proportion was .009835015% for FRS and .004640602% for HIS which was consistent with its proportion measured as of June 30, 2023.

For the year ended September 30, 2024, the District recognized pension expense of \$854,075. At September 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>FRS</u>		<u>HIS</u>	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 384,371	\$ -	\$ 6,722	\$ (1,337)
Changes in assumptions	521,462	-	12,320	(82,414)
Net difference between projected and actual earnings on pension plan investments	-	(252,877)	-	(252)
Changes in proportion and differences between contributions and proportionate share of contributions	715,068	(28,723)	148,647	-
District contributions subsequent to the June 30, 2024 measurement date	136,630	-	9,555	-
	<u>\$ 1,757,531</u>	<u>\$ (281,600)</u>	<u>\$ 177,244</u>	<u>\$ (84,003)</u>

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE D – RETIREMENT PLAN – CONTINUED

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – Continued

Total deferred outflows were \$1,934,775 and total deferred inflows were \$365,603. \$136,630 (FRS) and \$9,555 (HIS) reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ending September 30:</u>	<u>FRS</u>	<u>HIS</u>
2025	\$ 249,836	\$ 13,274
2026	249,836	13,274
2027	249,836	13,274
2028	249,836	13,274
2029	249,836	13,274
Thereafter	90,121	17,316
	<u>\$ 1,339,301</u>	<u>\$ 83,686</u>

Actuarial Assumptions

The total pension liability in the July 1, 2024 actuarial valuation (June 30, 2024 measurement date) was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 percent
Salary increases	3.25 percent, including inflation
Investment rate of return	6.70 percent, including inflation at 2.40%

Mortality rates for FRS were based on the PUB-2010 base table, projected generationally with Scale MP-2021, and mortality rates for HIS were based on the Generational PUB-2010 with Projection Scale MP-2021.

The actuarial assumptions used in the June 30, 2024 FRS valuation were based on the results of an actuarial experience study performed for the period July 1, 2018 – June 30, 2023. Because the HIS is funded on a pay-as-you-go basis, no experience study has been completed for that Plan, but were based on certain results of the most recent experience study for the FRS Plan.

The long-term expected rate of return on pension plan investments was determined in October 2024 by outside investment consultants to the Florida State Board of Administration. The table below shows the assumptions for each of the asset classes in which the plan was invested at that time based on the long-term target asset allocation. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption, (2.40%). These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

**PARRISH FIRE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE D – RETIREMENT PLAN – CONTINUED

Actuarial Assumptions – Continued

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Annual Arithmetic Return</u>
Cash	1.00%	3.30%
Fixed Income	29.00%	5.70%
Global Equity	45.00%	8.60%
Real Estate	12.00%	8.10%
Private Equity	11.00%	12.40%
Strategic Investments	2.00%	6.60%

Discount Rate

The discount rate used to measure the total FRS pension liability was 6.70%. The HIS discount rate was 3.93%. The HIS rate increased from 3.65% in the prior year in the most recent actuarial study. The HIS rate is based on the Bond Buyer General Obligation 20–Bond Municipal Bond Index. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following changes in actuarial assumptions occurred in 2024:

- All demographic assumptions and methods were reviewed as part of the 2024 Experience Study. Changes were adopted by the 2024 FRS Actuarial Assumption Conference during its meetings in October 2024.
- The coverage election assumptions were updated to reflect recent and anticipated future experience of HIS plan participants. Changes were adopted by the 2024 FRS Actuarial Assumption Conference during its October 2024 meeting.
- The discount rate was modified to reflect the change in the value of the municipal bond index between GASB measurement dates. The previous rate was 3.65%

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District’s proportionate share of the FRS net pension liability calculated using the discount rate of 6.70%, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1–percentage–point lower or 1–percentage–point higher than the current rate:

NOTES TO FINANCIAL STATEMENTS**

NOTE D – RETIREMENT PLAN – CONTINUED

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – Continued

	<u>1% Decrease</u>	<u>Discount Rate (6.70%)</u>	<u>1% Increase</u>
District's proportionate share of the FRS net pension liability	\$ 6,692,240	\$ 3,804,646	\$ 1,385,674

The following presents the District's proportionate share of the HIS net pension liability calculated using the discount rate of 3.93%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percent-point lower or 1-percentage-point higher than the current rate:

	<u>1% Decrease</u>	<u>Discount Rate (3.93%)</u>	<u>1% Increase</u>
District's proportionate share of the HIS net pension liability	\$ 792,461	\$ 696,136	\$ 616,170

Pension Plan Fiduciary Net Position

The District's proportion of net position has been determined on the same basis of each Plan. Detailed information about the pension plan's fiduciary net position is available in the separately issued State of Florida comprehensive annual financial report.

NOTE E – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained commercial insurance from independent third parties to mitigate the costs of these risks; coverage may not extend to all situations. There has been no significant reduction in coverage from the prior year. Settled claims from these risks have not exceeded commercial insurance coverage over the past three years.

NOTE F – SUBSEQUENT EVENT

Subsequent to year end, the District entered into a financing arrangement for the purchase of a ladder truck in the amount of \$1,420,946. The interest is fixed at 5.49% and the maturity date is February 2040.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – FRS/HIS**

ACTUARIAL METHODS AND ASSUMPTIONS

Actuarial assumptions for both defined benefit plans (FRS and HIS) are reviewed annually by the Florida Retirement System Actuarial Assumptions Conference. The FRS Pension Plan has a valuation performed annually. This HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS Pension Plan was completed for the period July 1, 2018, through June 30, 2023. Because the HIS Program is funded on a pay-as-you-go basis, no experience study has been completed for this program.

The total pension liability for the FRS plan was determined by an actuarial valuation as of July 1, 2024 and the HIS plan was determined by an actuarial valuation as of July 1, 2023. Both plans used the entry age normal actuarial cost method. Inflation increases for both plans is assumed at 2.40%. Payroll growth for both plans is assumed at 3.25%. Both the discount rate and the long-term expected rate of return used for FRS Pension Plan investments is 6.70%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Because the HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.93% (based on the Bond Buyer General Obligation 20-Bond Municipal Bond Index) was used to determine the total pension liability for the program. Mortality assumptions for FRS was based on the PUB-2010 base table, projected generationally with Scale MP-2021, and HIS was based on the Generational PUB-2010 with Projection Scale MP-2021.

The following change in actuarial assumptions occurred in 2024:

- All demographic assumptions and methods were reviewed as part of the 2024 Experience Study. Changes were adopted by the 2024 FRS Actuarial Assumption Conference during its meetings in October 2024.
- The coverage election assumptions were updated to reflect recent and anticipated future experience of HIS plan participants. Changes were adopted by the 2024 FRS Actuarial Assumption Conference during its October 2024 meeting.
- The discount rate was modified to reflect the change in the value of the municipal bond index between GASB measurement dates. The previous rate was 3.65%.

PARRISH FIRE DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF STATE FINANCIAL ASSISTANCE

NOTE A – BASIS OF PRESENTATION

The accompanying schedule of expenditures of state financial assistance includes the state grant activity of Parrish Fire District (District) and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the Florida State Single Audit Act and Rules of the Auditor General of the State of Florida, Chapter 10.550. Some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. Because the schedule presents only a selected portion of the District's operations, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are recognized following the cost principles contained in the Chapter 10.550 Rules of the Auditor General wherein certain types of expenditures are not allowable or are limited as to reimbursement.

OTHER REPORTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

**To the Board of Commissioners
Parrish Fire District
Manatee County, FL**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Parrish Fire District, Florida, (District) as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 13, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR
STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY CHAPTER
10.550, RULES OF THE AUDITOR GENERAL**

**To the Board of Commissioners
Parrish Fire District
Manatee County, Florida**

Report on Compliance for Each Major State Project

Opinion on Each Major State Project

We have audited Parrish Fire District, Florida’s (District) compliance with the types of compliance requirements identified as subject to audit in the Department of Financial Services’ State Projects Compliance Supplement that could have a direct and material effect on each of the District’s major state projects for the year ended September 30, 2024. The District’s major state projects are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state projects for the year ended September 30, 2024.

Basis for Opinion on Each Major State Project

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General. Our responsibilities under those standards, and Chapter 10.550, Rules of the Auditor General are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major state project. Our audit does not provide a legal determination of the District’s compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District’s state projects.

Auditor’s Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District’s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and Chapter 10.550, Rules of the Auditor General will always detect material noncompliance when it exists.

The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major state project as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards* and Chapter 10.550, Rules of the Auditor General, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Chapter 10.550, Rules of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in* internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state project on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state project will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Chapter 10.550, Rules of the Auditor General. Accordingly, this report is not suitable for any other purpose.

There were no matters reported.

PRIOR YEAR FINDINGS

No summary schedule of prior audit findings is required because there were no prior audit findings related to state projects.

MANAGEMENT LETTER

**Board of Commissioners
Parrish Fire District
Manatee County, Florida**

Report on the Financial Statements

We have audited the financial statements of Parrish Fire District, Florida, (the District), as of and for the fiscal year ended September 30, 2024, and have issued our report thereon dated June 13, 2025.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Florida Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major State Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated June 13, 2025, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no recommendations made in the preceding audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4, Rules of the Auditor General, requires the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is disclosed in Note A.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, requires us to apply appropriate procedures and communicate the results of our determination as to whether or not Parrish Fire District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific conditions met. In connection with our audit, we determined that the Parrish Fire District, was not in a state of financial emergency as it did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.544(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Parrish Fire District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Specific Information for an Independent Special District

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7, Rules of the Auditor General, the District reported:

- a. The total number of District employees compensated in the last pay period of the District's fiscal year was 32.
- b. The total number of independent contractors to whom non-employee compensation was paid in the last month of the District's fiscal year was 2.
- c. All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency was \$2,132,475.
- d. All compensation earned by or awarded to non-employee independent contractors, whether paid or accrued, regardless of contingency was \$20,308.
- e. Each construction project with a total cost of at least \$65,000 approved by the District that is scheduled to begin on or after October 1 of the fiscal year being reported, together with the total expenditures for such project was \$0.
- f. A budget variance based on the budget adopted under Section 189.016(4), Florida Statutes, before the beginning of the fiscal year being reported if the District amends a final adopted budget under Section 189.016(6), Florida Statutes. The budget variance schedule is presented on pages 29 and 30.

Specific Information for an Independent Special District that Imposes Non-Ad Valorem Special Assessments

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)9, Rules of the Auditor General, the District reported:

- a. The rates of non-ad valorem special assessments imposed by the District are presented on pages 38-40.

- b. The total amount of special assessments collected by or on behalf of the District was \$4,022,131.
- c. There were no bonds issued by the District, as such the outstanding amount is \$0 and there were no terms.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or fraud, waste or abuse, that has occurred, or is likely to have occurred, that has an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Commissioners, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Handwritten signature in black ink that reads "CS&L CPAs". The letters are cursive and somewhat stylized.

INDEPENDENT ACCOUNTANT'S REPORT ON INVESTMENT COMPLIANCE

Board of Commissioners
Parrish Fire District
Manatee County, Florida

We have examined the Parrish Fire District's compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2024. Management of the District is responsible for the District's compliance with the specified requirements. Our responsibility is to express an opinion on the District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the AICPA. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied in all material respects, with Section 218.415, Florida Statutes, regarding the investment of public funds for the year ended September 30, 2024.

This report is intended solely for the information and use of the District and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.
