## Independent Auditor's Report

RSM US LLP

Board of Directors  
DeSoto County Hospital District

### Report on the Audit of the Financial Statements

#### **Opinions**

We have audited the financial statements of the business-type activities of DeSoto County Hospital District (the District), as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the District as of September 30, 2025, and the changes in financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated April 13, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

### **Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025**

---

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance the financial statements are free of any material misstatements.

RSM US LLP, Certified Public Accountants, has audited the DeSoto County Hospital District's financial statements for the year ended September 30, 2025. The independent auditor's report is located on pages 1-2 of this report.

As management of the DeSoto County Hospital District (the District), we offer the readers of our financial statements this discussion and analysis as an overview of the financial activities of the District for the year ended September 30, 2025. Readers are encouraged to consider the information presented herein in conjunction with the accompanying District financial statements and related footnote disclosures and required supplementary information.

As further described, the District Board, due to the economic and regulatory environment, has entered into an agreement to lease the Hospital operations to Tampa General Hospital. The expected transfer date is during the Summer of 2026. Until then, the District will conduct normal operations.

#### **Background**

Located in Arcadia, Florida, the District is a special-purpose government, as defined by the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, engaged only in business-type activities and has no other material operations. The District includes in its financial statements all organizations for which it is financially accountable (component units), as defined by the accounting standards, and as further described in this section.

#### **Using This Report**

The financial statements presented herein include all the activities of the District using the reporting model prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

This annual report includes the financial statements of the District, including the operations of DeSoto Memorial Hospital (the Hospital) and its three component units, of which the District is the sole member: (1) DCHD Health Care Professionals, LLC (Professionals), exists for the sole purpose of employing such health care professionals and physicians needed to staff the Hospital and other locations; (2) DMH Real Estate Holdings, Inc. (Holdings), a nonprofit corporation to hold title to property for the exclusive use of the District; and, (3) The Apothecary at DeSoto Memorial Hospital, LLC (Apothecary), a retail pharmacy with a current location within the Hospital (collectively, the Blended Component Units). The operations of these entities have been reported as activities of the Hospital because of their relatively insignificant financial impact on overall operations, or they provide services solely to the Hospital. See Note 1 to the audited financial statements for further description of the component units.

The enclosed financial statements are designed to provide readers with an overview of the District's financial position and activity in a matter similar to a business enterprise.

## **DeSoto County Hospital District**

### **Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025**

---

The statement of net position presents information on the District's assets, liabilities and net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of revenues, expenses and changes in net position presents information indicating how the District's net position changed during the fiscal year. All changes in net position are reported when the event causing the change occurs, regardless of when related cash is given or received. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, which reflects the accrual basis of accounting.

The final required statement is the statement of cash flows. This statement reports cash receipts, payments and net changes in cash resulting from operating activities, noncapital financing activities, capital and related financing activities, and investing activities. This statement highlights the sources and uses of cash and changes in cash balance over the reporting period.

In addition, the aforementioned statements contain notes to provide additional information integral to a full understanding of the information provided in the financial statements. These notes explain organizational matters about the District, its accounting policies and their application, and further detailed information about the components of the basic financial statements.

#### **Profile of the District**

The District provides a continuum of health care services to the community through a network of organizations. The District currently owns and operates 49 acute-care beds as a designated rural sole community hospital, a home health agency, a retail Pharmacy and a hospital-based physician group. This network is commonly referred to as the Hospital. The Hospital provides services in southwest Florida, primarily in medically underserved areas, as classified by the United States Department of Agriculture, of DeSoto County and Hardee County.

In 1965, the District was legislatively created, pursuant to the laws of Florida, to own and operate medical facilities in DeSoto County. The District continued acute health care services established by local physicians in 1912. The District is governed by five directors appointed by the Governor of the State of Florida for terms of four years each. The current enabling Act of the District was passed by a Special Act of the Florida Legislature as Chapter 2008-270, Laws of Florida (the Act), which codified all prior laws that established the District, a public body corporate and politic of the State of Florida.

In 1985, due to certain national regulatory changes and a Florida change to state retirement coverage, a tax exempt 501(c)3 organization was formed, with the District as the Sole Member. Assets and the responsibility of operating the Hospital were transferred to this new organization. In 2010, due to various regulatory and other factors, the assets, except those accounts related to capital assets, were transferred back to the District. See Note 1 to the financial statements for additional information.

The hospital is primarily utilized by patients who are covered under Medicare or uninsured. Under Medicare, hospitals are paid based on the inpatient prospective payment system (IPPS). Each inpatient receives a diagnosis related group (DRG) with a payment weight assigned to measure the average resources used to treat the patient with that diagnosis. A hospital can qualify for a Disproportionate Share Hospital (DSH) payment for treating a high percentage of low income patients. The payment is a percentage add-on to the Medicare payment. Hospitals can also qualify for an outlier payment for patients with unusually high DRGs. The outpatient prospective payment system (OPPS) works essentially the same way in that diagnostic testing, surgeries, therapies and other treatments are set based on an average of resources used for the patient. Each year the payment system is reviewed and adjusted to align with goals for improving transparency and promoting patient centered care. The DSH payments are reviewed as a part of the maximum allowed through the DSH cost limit cap that includes LIP, DPP, and Medicaid shortfalls from Cost Report submissions.

## **DeSoto County Hospital District**

### **Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025**

---

Medicare has made a number of changes in reimbursement and reporting requirements. The District provides a price estimator on its website to assist patients in understanding the financial information related to services they seek. This allows potential patients access to data provided by their health plan regarding coverage and contractual elements as it relates to services provided by the District. Similar information is now being made available through patients' health plans. The hospital is known to be lower cost to patients as compared to other hospital facilities in southwest Florida.

As of 2025, Florida has not implemented the Medicaid expansion for low income patients under the Affordable Care Act. Current political advocates have been working on a Florida Medicaid Expansion Initiative which is being reviewed for the ballot in 2026. A Directed Payment Plan (DPP), through the state of Florida was made available for the first time in 2021 to assist in offsetting some of the payment shortfall from Medicaid Managed Care. Supplemental reimbursement under this program totaling approximately \$4.2 million was received from each Medicaid Health plan in 2025 partially funded by an intergovernmental transfer payment, used by the State to generate Federal matching funds, from the District of approximately \$1.856 million in February 2025. The State of Florida legislature is expected to approve the program for the state's fiscal year ending June 30, 2026. The hospital will receive 94% of the funds after all hospital in the Region 8 designation send their intergovernmental payment. The remaining 6% is allocated based on clinical criteria being met by all of the hospitals in the Region. The District continues to work with the Florida Hospital Association (FHA) to understand the computations and expects the DPP receipts will be included in the Disproportionate Share Hospital (DSH) cap allowance. The State petitioned and received approval by CMS for 2026 DPP funds. The funds approved are approximately double the funds received in 2025.

Most Florida Medicaid beneficiaries are now covered by commercial managed care organizations (Managed Medical Assistance program) and Medicare beneficiaries continue to steadily convert to Medicare Replacement Plans. These plans often have narrow physician networks or utilize non-hospital resources for plan beneficiary medical care. In March of 2023 Medicaid coverage enacted during the pandemic ended and all recipients were required to re-enroll. The rules for eligibility changed and DMH saw a significant decrease in Medicaid patients and an increase in uninsured patients in fiscal year 2025.

In 2002, Florida approved the utilization of Section 1115 Waivers and received matching funds from the federal government. The Agency for Health Care Administration reached an agreement with CMS to extend the 1115 Managed Medical Assistance waiver through June 30, 2030. This allows for the continuation of the Low Income Pool funding. The LIP funds are computed on the cost of charity care rendered by health care providers, primarily acute care hospitals. For the Hospital, the state fiscal year 2025 funds allocated were approximately \$2.92 million. The Florida legislature has approved an allocation to the Hospital of approximately \$3.6 million for state fiscal year ending June 30, 2026. These funds help to offset the provision for charity care not covered by any other subsidies or programs.

Medicare supports Disproportionate Share Hospital's (DSH) Bad Debt and Charity Care patients (uncompensated services), primarily through a National Funding Account covering hospitals who meet specific criteria. A significant portion of bad debt accounts are incurred due to the inability to obtain proper documentation from patients who would otherwise be eligible to be classified as charity care services. The majority of these patients incur emergency services, wherein the Emergency Medical Treatment and Labor Act (EMTALA) is applicable. Based upon preliminary Medicare Cost Report information, we believe the Hospital will not meet the threshold criteria for DSH status. The status is based primarily on inpatient days of service to Medicaid Plan covered patients. Significant changes in the Medicaid benefits, as well as the continuing trend of technology allowing outpatient services to treat patients formerly treated as inpatients, are causing a significant decrease in the threshold formula. As such, management has reserved approximately \$840,000 as the expected decrease in these supplemental funds from Medicare. Medicare also supplies funds due to the low volume of Traditional Medicare Inpatient Discharges. The current add-on is approximately 24% of the Medicare Inpatient Base Rate.

## **DeSoto County Hospital District**

### **Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025**

---

Florida also enacted a requirement of Medicaid recipients to ask patients about their immigration status. Under the law, hospitals report the information quarterly to the Florida Agency for Health Care Administration. Continuing challenges facing the District and the rural health care industry include providing high-quality patient care in a competitive environment, contending with significant increases in complex regulatory requirements, attaining reasonable reimbursement rates for services provided, and managing costs.

On November 4, 2014, the community approved a sales tax increase, effective January 1, 2015, designated solely for payment of Hospital debt outstanding as of August 12, 2014. The Hospital Board (the Board) directed these funds to be designated for funding the USDA Mortgage Debt Service. The Hospital receives monthly cash transfers from the county to the Designated Debt Service Account. The Hospital received \$2.5 million in proceeds in fiscal year 2024 and \$2.6 million in fiscal year 2025. Total debt service is approximately \$1.2 million per year. District management works with the Board of Directors to decide when to apply the collections in excess of annual debt service requirements to the principal. Because the District's labor costs were increasing, the excess funds were held and to be reviewed at a later date. In fiscal year 2022, the Debt Service Reserve Fund requirement had been fulfilled. The Board approved a \$4.0 million payment that was submitted in March 2025. Any excess funds attained in fiscal year 2025 will be held until the next mortgage payment due date of June 12, 2026. At that time, a decision will be made as to potential extra payments on the principal outstanding. The increased sales tax segment may be terminated at any time by majority vote of the county commissioners.

Another significant challenge facing the District and the industry is the ongoing increase in labor costs due to shortage of nurses and other skilled health care professionals, especially in rural areas. This shortage was extremely amplified during the COVID-19 pandemic and the Florida Freedom First Budget for fiscal year 2022-2023 requiring Medicaid providers to pay a minimum wage of \$15.00 per hour for employees and independent contractors. Industry experts expect the labor shortage to continue for the foreseeable future. The District has implemented various initiatives to better position itself to attract and retain qualified nursing and other clinical professionals, while trying to improve productivity and manage labor-cost pressures. Hospital Administration continues to utilize creative collaborations with our physician groups and telemedicine for physician coverage.

In late September 2022, Hurricane Ian made landfall in Florida and DeSoto Memorial Hospital fell in the direct path of the storm, which caused some exterior and interior structural damage and additional expenses related to on-call staffing. The District continues to work with the Federal Emergency Management Agency and AC Disaster Consulting to receive funds for repairs and mitigation of damages. Initial funds were received in 2025 to cover repair and remediation of damages incurred. The remaining funds available of approximately \$1.5 million are expected to be received in 2026.

During fiscal year 2025, the District initiated an evaluation of strategic options in response to adverse financial and regulatory conditions. Following outreach and discussions with governmental agencies, tertiary care providers, and national health care systems, the District's Board issued a request for proposals seeking potential long-term solutions for the District's operations. Multiple proposals were received and reviewed. After a comprehensive evaluation process, including public hearings, the Board selected a proposal from Tampa General Hospital to lease the District's facility and hospital operations. A Letter of Intent was executed on January 9, 2026, and due diligence procedures are currently underway. Based on the anticipated timeline, the lease is expected to commence by July 1, 2026.

## DeSoto County Hospital District

### Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025

The following are condensed statements of net position as of September 30, 2025 and 2024.

|                                           | 2025                 | 2024                 |

### Business Type Activities

The primary business activity of the District is the operation of the Hospital and other health care services, which is considered business-type activity and accounted for in a single proprietary fund. Other activities of the District are not material and are not reported in separate funds.

## DeSoto County Hospital District

### Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025

---

In fiscal year 2025, inpatient volumes decreased approximately 5%, observation days decreased 8% and outpatient services decreased approximately 13%. In fiscal year 2024, inpatient volumes decreased approximately 11%, observation days decreased 5% and outpatient services increased approximately 4%. Overall outpatient volumes decreased due to decreases in radiology, lab and emergency services.

In fiscal year 2025, net patient service revenue decreased approximately \$2,208,000 or 5% compared to 2024. In fiscal year 2024, net patient service revenue increased approximately \$1,252,000 or 3% compared to 2023.

For fiscal year 2025, salaries, wages and employee benefits (including contract labor) increased approximately \$1,034,000 or 4% as compared to 2024. For fiscal year 2024, salaries, wages and employee benefits (including contract labor) decreased approximately \$1,714,000 or 7% as compared to 2023.

For fiscal year 2025, physician fees decreased approximately \$154,000 or 6% and other fees decreased approximately \$156,000 or 2% from 2024. For fiscal year 2024, physician fees had minimal change (approximately \$18,000) and other fees decreased approximately \$84,000 or 1% from 2023.

For fiscal year 2025, supplies decreased approximately \$144,000 or 3% compared to fiscal year 2024. For fiscal year 2024, supplies decreased approximately \$306,000 or 5% compared to fiscal year 2023.

For fiscal year 2025, net nonoperating revenue and capital contributions increased approximately \$1,583,000 or 67% from 2024. For fiscal year 2024, net nonoperating revenue increased approximately \$845,000 or 56% from 2023.

#### Operating Statistics

The table below sets forth certain selected historical operating statistics for the District for the years ended September 30, 2025 and 2024:

|                                                    | 2025          | 2024          |
|----------------------------------------------------|---------------|---------------|
| Net patient service revenue                        | \$ 41,928,876 | \$ 44,137,323 |
| Net patient service revenue per adjusted admission | 8,052         | 8,075         |
| Net patient expense per adjusted admission         | 8,791         | 8,231         |
| Acute admissions                                   | 829           | 791           |
| Surgery cases                                      | 502           | 502           |
| Admissions through emergency services              | 617           | 623           |
| Adjusted admissions (1)                            | 5,207         | 5,466         |
| Case mix index—all inpatients (2)                  | 1.283         | 1.219         |

(1) Adjusted admissions is an equivalency metric representing patient hospital admissions adjusted to include outpatient and emergency room services by multiplying inpatient admissions by the sum of gross inpatient revenues and outpatient revenues and dividing the result by gross inpatient revenues.

(2) Case mix index represents the acuity level of inpatient services rendered. Changes generally reflect the level of resources required. For Medicare and certain commercial insurance payors, this relative value weighting system directly affects the reimbursement level.

## DeSoto County Hospital District

### Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025

---

#### Revenue and Volume Trends

The District's revenues depend upon inpatient occupancy levels, ancillary services volume, mix of services provided and reimbursement rates for such services. The District has agreements with third-party payors, including government programs and managed-care health plans, whereby the District is paid based upon predetermined rates per diagnosis, fixed per diem inpatient rates or discounts from established charges. Although efforts continue toward improving reimbursement rates with contracted payors, there are no assurances the District will continue to achieve increases in the future.

The District believes it will realize rate increases from commercial payors approximately equal to inflationary cost increases. Given budget concerns at both the federal and state levels, further government plan rate reductions are highly probable and would be a significant financial detriment.

In addition, the District receives funding through several distinct programs related to maintaining Disproportionate Share Hospital and Sole Community Hospital status. During fiscal year 2020, the Hospital became aware that the volume of low-income patients with governmental health plan coverage decreased below the threshold for maintaining 340B status to obtain outpatient drugs through the Medicaid Group Purchasing network. This decrease was greatly impacted with the decision to stop Obstetric and Gynecological services. The 340B status would have allowed the Hospital to save on pharmacy supply costs for outpatient drugs. In 2024, Medicare paid under the Medicare Part B for cost of drugs at the average sales price plus 6%. Hospitals qualify based on the high volume of care to patients with low income. The formula to determine participation status is based upon inpatient days of Medicare/SSI and Medicaid patients. Changes between inpatient and observation patient classifications also impacts 340B status. Although the Hospital's case management team continues to work with insurance carriers to ensure proper patient classification, we currently believe the district would teeter qualifying for the program. The District's DSH status is also susceptible due to the inpatient day volatility and its impact on the threshold calculation. With the addition of the DPP, funds received under the DSH program will be limited based on a DSH cap calculation.

For next fiscal year, management believes, based on constant review of federal government rate changes for rural hospitals and state Medicaid subsidies, Medicare plan rates will only increase in line with inflationary cost. The state Medicaid reimbursement is very volatile and we rely on the Florida Hospital Association to engage our state representatives.

Many managed care vendors make utilization of hospital services very difficult to obtain. Based upon current federal legislative actions and discussions, significant adverse changes in Medicaid plan reimbursement are very likely to continue into ensuing years, especially in areas where aggressive managed care is utilized. The State has renewed all Medicaid Health Plans. These new Plans became effective February 1, 2025. Medicare Replacement Plans are required to be more in line with Traditional Plans in 2025. We expect these changes will allow hospitals to more efficiently process patients with these Replacement Plans.

The percentage of patient service revenue related to Medicare, Medicaid, discounted arrangements and other, follows for the years ended September 30, 2025 and 2024:

|                                  | 2025 | 2024 |
|----------------------------------|------|------|
| Medicare                         | 48%  | 48%  |
| Medicaid                         | 12%  | 14%  |
| Insurance (primarily Blue Cross) | 27%  | 26%  |
| Self-pay                         | 13%  | 12%  |

## **DeSoto County Hospital District**

### **Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025**

---

The District provides significant health care to the indigent population within its primary service area. Uncompensated charges for care provided to this population included charity care of approximately \$19,822,000 and \$17,985,000 and bad debts of approximately \$3,606,000 and \$4,680,000 for the years ended September 30, 2025 and 2024, respectively. These patients represent approximately 13% of total gross patient revenues for the fiscal years 2025 and 2024, respectively. Management's projection for the ensuing year is to decrease uncompensated services as a percentage of total services through continued thorough credit reviews at the time of service and to increase service volume to patients covered by commercial and government health care reimbursement plans.

#### **Liquidity and Capital Resources**

The District's cash and investment accounts are held in Qualified Public Depositories and Local Government Surplus Trust Fund Investment Pools, as allowed by Florida Statute. Cash, cash equivalents and current unrestricted investments totaled approximately \$1,452,000 and \$4,050,000 as of September 30, 2025 and 2024, respectively.

As of September 30, 2025, the District's current ratio, which compares current assets to current liabilities, was 0.7 compared to 1.1 as of September 30, 2024. The District's days net patient service revenue in accounts receivable of 27 days as of September 30, 2025, decreased from 28 days as of September 30, 2024. Capital asset additions totaled approximately \$2,755,000 in 2025.

At September 30, 2025, the District had approximately \$6,360,000 outstanding in a mortgage payable to the USDA for a 2008 facility expansion/renovation. The District also had another approximately \$6,529,000 and \$8,000,000 outstanding on leases and SBITAs payable and other debt, respectively. Maturities and other information regarding the current debt obligations are presented in Notes 6 and 7 to the District's financial statements.

#### **Effects of Inflation and Changing Prices**

Various federal and state laws have been enacted, severely limiting the amount the District will receive for patient care. Revenues for acute-care hospital services rendered to Medicare patients are established under the federal government's prospective payment system. Medicare periodically updates hospital rates based upon specific cost report years. The last update for the Hospital was in 2006. At the state level, revenues for outpatient services rendered to Medicaid patients are now based on a statewide cost-based reimbursement program set by the state and can be modified based on the state's current budgetary conditions. Florida legislative action in 2017 moved Medicaid cost-based outpatient reimbursement to an average payment method. In 2018, Medicaid inpatient reimbursement was reduced by about 20%. These both have had a significant adverse impact on District reimbursement. Patients covered by government plans constitute approximately 66% of the District's services provided to the community. Commercial Health Plans continue to either deny or place heavy financial out-of-pocket burdens on plan members for services performed in a hospital setting.

Management believes hospital industry operating margins have been, and will continue to be, under significant pressure because of changes in health plan benefit design, reimbursement rates and growth in operating expenses. Recent federal legislation regarding Medicare payments and impact on access to health plan coverage due to changes in the federal tax regulations, continue to have a negative financial impact on the Hospital. As a result of increasing regulatory and competitive pressures, including additional measures being considered under various federal health care reform proposals, the District's ability to maintain operating margins through price increases to nongovernmental payors and patients is extremely limited.

### **Management's Discussion and Analysis (Unaudited) Fiscal Year Ended September 30, 2025**

---

#### **Providing Care**

In the United States, one third of the clinical workforce left their positions. Experts estimate that there will be a shortage of approximately 300,000 physicians and nurses over the next 10 years to meet the needs of our aging population. Information technology to modernization linking clinical data from medical records to claims processing and standardizing clinical data collections could save billions per year. Hospitals are struggling to receive proper reimbursement from all payer sources and regulatory requirements have added stresses in keeping those funds. The Federal Administration and the U.S. Congress as well as our Florida legislatures may seek to modify health care legislation. The continuing development of implementing regulations and interpretive guidance and legal challenges has contributed to the uncertainty of financial stability in providing healthcare. Rural hospitals have been struggling with these issues for decades. We are a key component of providing healthcare to some of the most vulnerable patients. The District continues to seek innovative ways to provide safe medical treatment with high standards.

#### **Requests for Information**

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

|                                                                  |                     |
|------------------------------------------------------------------|---------------------|
| Cash flows from operating activities:                            |                     |
| Cash received from third-party payors, patients and other        | \$ 41,989,514       |
| Cash paid to employees                                           | (23,284,497)        |
| Cash paid for supplies, purchased services and other             | (18,457,174)        |
| <b>Net cash provided by operating activities</b>                 | <b>247,843</b>      |
| Cash flows from noncapital financing activities:                 |                     |
| Sales tax proceeds received                                      | 2,664,801           |
| Noncapital grants, contributions and other revenue received      | 605,058             |
| <b>Net cash provided by noncapital financing activities</b>      | <b>3,269,859</b>    |
| Cash flows from capital and related financing activities:        |                     |
| Purchase of capital assets                                       | (1,842,906)         |
| Principal payments on long-term debt                             | (5,916,977)         |
| Principal payments on SBITAs                                     | (666,392)           |
| Interest payments on long-term liabilities                       | (927,258)           |
| Capital grants, contributions and other revenue received         | 590,927             |
| <b>Net cash used in capital and related financing activities</b> | <b>(8,762,606)</b>  |
| Cash flows from investing activities:                            |                     |
| Investment income                                                | 126,508             |
| <b>Net cash provided by investing activities</b>                 | <b>126,508</b>      |
| <b>Change in cash and cash equivalents</b>                       | <b>(5,118,396)</b>  |
| Cash and cash equivalents:                                       |                     |
| Beginning                                                        | 9,117,641           |
| Ending                                                           | <b>\$ 3,999,245</b> |
| Reconciliation of cash and cash equivalents:                     |                     |
| Unrestricted                                                     | \$ 652,131          |
| Restricted and designated                                        | 3,347,114           |
| <b>Total cash and cash equivalents</b>                           | <b>\$ 3,999,245</b> |

## DeSoto County Hospital District

### Notes to Financial Statements

---

#### **Note 1. Nature of Organization and Summary of Significant Accounting Policies**

**Organization:** DeSoto County Hospital District (the District) was originally formed as a special tax district in order to provide comprehensive health care for the citizens of DeSoto County, which included the operation of DeSoto Memorial Hospital (the Hospital). On September 25, 1985, a nonprofit organization, DeSoto Memorial Hospital, Inc. (DMHI) was formed, and on December 20, 1985, the assets and the responsibility for the operation of the Hospital were transferred from the District to DMHI, while the District remained in existence to assume responsibility for any new undertakings compatible with its enabling legislation pursuant to Chapter 65-1450 of the laws of Florida. On July 1, 2010, by unanimous authorization of the governing members of both the District and DMHI, the Hospital operations and certain assets and liabilities were transferred from DMHI back to the District.

The District is governed by a five-member Board of Directors that is appointed by the governor of the State of Florida. The District established a seven-member board, the Subagency Board, to govern the Hospital. The Subagency Board consists of the five-member District Board of Directors and two members from the community. The Subagency Board has the authority to appoint the Hospital and related entities' Chief Executive Officer, determine final action on all matters relating to medical staff membership or affiliation, and oversee hospital-related operational and patient care issues.

Also on July 1, 2010, the District formed DeSoto County Hospital District (DCHD) Health Care Professionals, LLC (Professionals), of which it owns 100%. Professionals exists for the sole purpose of employing such health care professionals as deemed appropriate by the District Board of Directors, including, but not limited to, those health care professionals and physicians needed to staff the Hospital and other locations. Professionals had no operating activity in 2025.

In addition, the DMHI articles of incorporation and bylaws were amended to allow the District to appoint the DMHI Board of Directors. The name of DMHI was changed to DMH Real Estate Holdings, Inc. (Holdings). Holdings owns the property and equipment and is responsible for the mortgage that were previously held by DMHI. Holdings leases the property to the District under a long-term lease, which requires monthly payments of \$101,500 through June 30, 2036, also known as the option period. The lease allows the District to acquire the property at any time during the option period for the price of full satisfaction of the mortgage payable. The District and Holdings account for this as leased assets.

The District is the sole member of The Apothecary at DeSoto Memorial Hospital, LLC (Apothecary), which is an entity created during fiscal year 2021, that was formed to operate a retail pharmacy from a current location within the Hospital.

The District is a special-purpose government engaged only in business-type activities and has no other material operations. The District includes in its financial statements all organizations for which it is financially accountable (component units), as defined by the accounting standards. Holdings, Professionals and Apothecary are blended component units as the District is either the sole member of all or appoints their boards and these organizations provide benefits exclusively or almost exclusively to the District.

The District has not included the required disclosures and condensed information for component units in accordance with Government Accounting Standards Board (GASB) Statement 61, as management concluded that the nature of these activities and transactions are already transparent in these statements and amounts are not significant to the overall District. All inter-entity transactions between the Hospital and its blended component units have been eliminated in consolidation.

## DeSoto County Hospital District

### Notes to Financial Statements

---

#### **Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)**

The Hospital, located in Arcadia, Florida, is an acute care hospital that provides inpatient, outpatient and emergency care services for residents of the area. Admitting physicians are primarily practitioners in the local area. The Hospital is a Sole Community Hospital and a Disproportionate Share Hospital.

**Basis of accounting:** The primary purpose of the District is the provision of health care services through the Hospital, and as such, it utilizes accounting practices of health care organizations as defined in the American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guide, *Health Care Organizations*, and follows accounting principles generally accepted in the United States of America (U.S. GAAP). The District follows applicable Governmental Accounting Standard Board (GASB) principles.

**Use of estimates:** The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Cash and cash equivalents:** Cash and cash equivalents include all cash and investments in highly liquid securities purchased with an original maturity of three months or less, excluding amounts in assets limited as to use.

**Deposits:** The District maintains cash in checking, savings, money market savings and certificates of deposit accounts. The District maintains an investment policy in accordance with Florida Statutes, which authorizes the District to maintain its cash in Qualified Public Depositories (QPDs) covered by federal insurance or posted collateral. It may also invest surplus funds in the following:

- (a) The Local Government Surplus Trust Fund or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes
- (b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency
- (c) Interest-bearing time deposits or savings accounts in state certified QPDs as defined in Section 280.02, Florida Statutes
- (d) Direct obligations of the U.S. Treasury

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it in full. In accordance with the Florida Statutes, the District maintains deposits at QPDs that are covered by federal depository insurance or posted collateral. At September 30, 2025, the carrying amount of the cash deposits was approximately \$4,000,000 and the bank balance was approximately \$4,000,000.

**Investments:** Investments include certificates of deposits with maturity dates less than 12 months. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it in full. In accordance with the Florida Statutes, the District maintains deposits at QPDs that are covered by federal depository insurance corporation or posted collateral. At September 30, 2025, the carrying amount of the certificates of deposit was approximately \$800,000 and the bank balance was approximately \$800,000.

## DeSoto County Hospital District

### Notes to Financial Statements

---

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

**Patient accounts receivable:** Patient receivables, where a third-party payor is responsible for paying the amount, are carried at a net amount determined by the original charge for the service provided, less an estimate made for contractual adjustments or discounts provided to third-party payors.

Patient receivables due directly from the patients are carried at the original charge for the service provided less an estimated allowance for doubtful receivables. Management determines the allowance for doubtful accounts by identifying troubled accounts and by historical experience applied to an aging of accounts. Patient receivables are written off when deemed uncollectible. Recoveries of receivables previously written off are recorded when received.

As of September 30, 2025, estimated allowances for contractual adjustments and doubtful accounts totaled approximately \$11,559,000.

The Hospital has entered into a service arrangement to sell certain patient receivable balances to a third-party. The balances are sold with recourse; therefore, the Hospital is obligated to repurchase any uncollected receivables after 95 days of service by the service provider. The Hospital records a liability for the estimated recourse payable for all accounts being serviced at period-end. As of September 30, 2025, the accounts receivable sold to the third-party were approximately \$164,000, and the estimated recourse liability recorded by the Hospital was approximately \$67,000, which is included in the allowance for doubtful accounts.

**Assets limited as to use:** Assets limited as to use consist of certificates of deposit and money market funds (see deposits on previous page) designated for the professional liability self-insurance and designated as restricted for debt service reserve (see Note 6), as required by the terms of the mortgage payable and from a DeSoto County ordinance for use of the sales tax revenues. Amounts available to meet the related current liabilities have been classified as current assets in the statement of net position.

**Inventories:** Inventories, consisting primarily of medical and pharmaceutical supplies, are stated at the lower of cost or market, determined using the first-in, first-out (FIFO) method.

**Capital assets:** Purchases of land, buildings and equipment are stated at cost, if purchased, or acquisition value at the date of donation, if donated. Assets under lease obligation are depreciated over the shorter of the lease term or their respective estimated useful lives, unless the District intends to purchase the asset at the end of the lease term in which case they are depreciated over the useful lives of the assets. Depreciation is provided using the straight-line method, half-year convention, over the estimated useful life of each class of depreciable assets. The depreciable lives of capital assets for financial statement purposes are as follows:

|                            | Life (Years) |
|----------------------------|--------------|
| Land improvements          | 10-20        |
| Buildings and improvements | 10-40        |
| Fixed equipment            | 5-20         |
| Major movable equipment    | 3-15         |

Capital assets are reviewed for impairment when events or changes in circumstances suggest that the service utility of the capital asset may have significantly and unexpectedly declined. No asset impairment charges were recorded in 2025.

## DeSoto County Hospital District

### Notes to Financial Statements

---

#### **Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)**

**Leases:** A lease asset is determined at inception when the control of the right-of-use underlying asset belongs to the entity for the term of the lease for a period of one year or greater. The term of the lease may include exercisable options when reasonably certain the option will be renewed. Right-of-use assets are amortized in a systematic and rational manner over the shorter of the lease terms or useful life of the underlying asset.

Leases in which the District is the lessee, are included as right-of-use assets, net of amortization, in accordance with GASB Statement No. 87, *Leases* (GASB 87), in the statement of net position at the present value of expected lease payments over the lease term, adjusted for lease incentives, if applicable. Lease liabilities are based initially on the present value of lease payments or receipts, respectively, over the course of the lease and is re-measured whenever there is a change or modification of the lease terms. The current and long-term lease liabilities are recorded within long-term debt in the statement of net position.

For leases recorded, the rates are based upon the incremental borrowing rate and vary based on inception date and terms of the contract. Current rates range from 0.32% to 7.60%.

**Subscription-Based Information Technology Arrangements:** Subscription-Based Information Technology Arrangements (SBITA) are defined as contracts that conveys control of the right-of-use another party's information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction. A SBITA is included as a right-of-use asset and corresponding SBITA liability in accordance with GASB Statement No. 96, *Subscription-Based Information Technology Arrangements* (GASB 96).

For SBITAs recorded, the rates are based upon the incremental borrowing rate and vary based on inception date and terms of the contract. Current rates are 8%.

**Compensated absences:** The District's employees earn paid time off (vacation, sick time and other absences) at varying rates depending on years of service and position. Employees accumulate hours of paid time off subject to certain limits. Upon termination, employees are paid for time off accrued but not used at their current rate of pay, subject to certain limits. In accordance with GASB Statement No. 101, *Compensated Absences*, accumulated time off is estimated and accrued as liabilities on the financial statements to the extent that it is more likely than not that the leave will be used for time off or otherwise paid in cash or settled through noncash means.

**Risk management:** The District is exposed to various risks of loss from theft of, damage to and destruction of assets; malpractice; workers' compensation; employee medical; and other matters for which the District has self-insured a portion of, and purchased commercial insurance coverage for the remaining risk. Settled claims have not exceeded commercial coverage in any of the three preceding years. Provisions for estimated professional liability costs include estimates of the ultimate costs for both reported claims and claims incurred but not reported.

**Net patient service revenue:** The Hospital has agreements with third-party payors that provide for reimbursements to the Hospital at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges and per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors and others as services are rendered. Retroactive adjustments under reimbursement agreements with third-party payors are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

## DeSoto County Hospital District

### Notes to Financial Statements

---

#### **Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)**

**Charity care:** The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collections of amounts determined to qualify as charity care, they are not reported as revenue.

**Operating revenues and expenses:** The District's statement of revenues, expenses and changes in net position distinguish between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing health care services, the District's principal activity. Operating expenses are all expenses incurred to provide health care services other than financing costs. Investment income, noncapital contributions and grants are reported as nonoperating revenues.

**Grant and contribution income:** Revenues from grants and contributions (including contributions of capital assets) are recognized when all eligibility requirements, including time requirements, are met. Grants and contributions may be restricted for either specific operating purposes or for capital purposes. Amounts that are unrestricted or restricted for specific operating purposes are reported as nonoperating revenues. Amounts restricted for capital purposes are reported as capital grants and contributions.

**Sales tax revenue:** Sales tax revenue is recognized when measurable and the underlying exchange has occurred. Revenues are restricted by county ordinance for the payment of debt service. Sales tax receivable for the year ended September 30, 2025, is approximately \$492,000 and is recorded in other receivables on the statement of net position.

**Income taxes:** As a governmental entity, the District is not subject to federal or state income taxes. Holdings (previously DMHI) is a nonprofit corporation described in Section 501(c)(3) of the Internal Revenue Code (the Code) and under the provisions of Chapter 220.13 of the Florida Income Tax Code and are exempt from federal and state income taxes on related income pursuant to Section 501(a) of the Code. Accordingly, no provision for income taxes is made in the accompanying financial statements. The Code provides for taxation of unrelated business income under certain circumstances. The District does not have any significant unrelated business income that would be subject to tax.

Holdings files a Form 990 (Return of Organization Exempt from Income Tax) annually. When the returns are filed, it is certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would ultimately be sustained. Examples of tax positions common to health systems include such matters as the tax-exempt status of each entity and various positions relative to potential sources or amounts of unrelated business taxable income.

Tax positions are not offset or aggregated with other positions. Tax positions that meet the more likely than not recognition threshold are measured as the largest amount of tax benefit that is more than 50% likely to be realized on settlement with the applicable taxing authority. There were no unrecognized tax benefits identified nor recorded as a liability as of September 30, 2025.

Forms 990 and 990T filed by Holdings are generally subject to examination by the Internal Revenue Service (IRS) up to three years from the extended due date of each return. Forms 990 and 990T filed by this entity are generally no longer subject to examination for the fiscal years ended September 30, 2020, and prior.

## DeSoto County Hospital District

### Notes to Financial Statements

---

#### **Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)**

**Net position:** Net position is classified as one of three components. These classifications are defined as follows:

**Net investment in capital assets:** This component of net position consists of capital assets and right-of-use assets, net of accumulated depreciation and amortization and reduced by the outstanding balances of any borrowings that are attributable to the acquisition, construction or improvement of those assets.

**Restricted:** This component of net position consists of external constraints placed on net position use by contributors due to time or use restrictions, or restrictions by grantors, creditors (such as through debt covenants), or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

**Unrestricted:** This component of net position consists of net position that does not meet the definition of restricted or invested in capital assets.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

#### **Note 2. Patient Service Revenue**

The Hospital has agreements with third-party payors that provide for reimbursements to the Hospital at amounts different from its established rates. A summary of the basis of reimbursement from major third-party payors follows:

**Medicare and Medicaid:** Inpatient acute-care services rendered to Medicare program beneficiaries are primarily paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Outpatient services and defined capital costs related to Medicare beneficiaries are paid on a prospective reimbursement basis. The Hospital is reimbursed on an interim basis at a tentative rate, which is recalculated and adjusted to actual claims, with final settlement determined after submission of annual cost reports by the Hospital and audits by the Medicare fiscal intermediary.

The Hospital's Medicare cost reports have been audited and final settlements have been determined by the fiscal intermediary for all years through September 30, 2020.

Effective July 1, 2013, inpatient services rendered to Medicaid program beneficiaries were reimbursed under an inpatient payment method that utilizes Diagnosis-Related Groups (DRGs). For outpatient services, the Hospital reimbursement was on prospective rate setting methodology. Effective July 1, 2017, the Florida Medicaid program converted to an Ambulatory Payment Classification system.

Retroactive adjustments for Medicare and Medicaid cost report settlements are accrued on an estimated basis in the period when the related services are rendered and adjusted in future periods when final settlements are determined.

During the Hospital's year ended September 30, 2025, the State of Florida legislature authorized the hospital Directed Payment Program (DPP) in the state fiscal year 2024-2025 General Appropriations Act. The DPP provided directed payment to hospitals in an amount up to the Medicaid shortfall, or the difference between the cost of providing care to Medicaid-eligible patients and the payments received for those services. The payment arrangement directed payments, within each Medicaid region, equally to all hospitals within each class for hospital services provided by hospitals and paid by Medicaid health plans.

## DeSoto County Hospital District

### Notes to Financial Statements

---

#### Note 2. Patient Service Revenue (Continued)

For a region to participate in the DPP, all hospitals in at least one of the classes (private, public or cancer hospitals) had to agree to participate and be subject to an assessment to fund the state share of the DPP. During the year ended September 30, 2025, the Hospital recognized \$2,480,000 of revenue related to the DPP for the state fiscal year 2024-2025. This revenue is included in net patient service revenue on the accompanying statement of revenues, expenses and changes in net position for the year ended September 30, 2025.

**Other payors:** The Hospital has also entered into payment arrangements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Hospital under these arrangements includes prospectively determined rates per discharge and discounts from established charges. Some of these arrangements provide for review of paid claims for compliance with the terms of the contract and result in retroactive settlement with third parties. Retroactive adjustments for other third-party claims are recorded in the period when final settlement is determined.

The Hospital's patient acceptance policy is based on its mission statement and its charitable purposes. Accordingly, the Hospital accepts patients in immediate need of care, regardless of their ability to pay. The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor arrangements.

To the extent the Hospital realizes additional losses resulting from higher credit risk for patients that are not insured under third-party payors and not identified as meeting or do not meet the previously described charity definition, such additional losses are included in the provision for bad debts. For the year ended September 30, 2025, bad-debt adjustments of approximately \$3,606,000 were recognized as a reduction of patient service revenue.

Net patient service revenue and accounts receivable as of and for the year ended September 30, 2025, include amounts from the following payors:

|           | Net Patient<br>Service Revenue | Net Patient<br>Accounts<br>Receivables |
|-----------|--------------------------------|----------------------------------------|
| Medicare  | 48%                            | 41%                                    |
| Medicaid  | 12%                            | 8%                                     |
| Insurance | 27%                            | 29%                                    |
| Self-pay  | 13%                            | 22%                                    |
| Total     | 100%                           | 100%                                   |

A summary of net patient service revenue for the years ended September 30, 2025, is as follows:

|                                                            |                |
|------------------------------------------------------------|----------------|
| Gross patient charges                                      | \$ 182,993,590 |
| Charity adjustments                                        | (19,821,634)   |
| Contractual adjustments                                    | (117,637,335)  |
| Net patient service revenue before provision for bad debts | 45,534,621     |
| Provision for bad debts                                    | (3,605,745)    |
| Net patient service revenue                                | \$ 41,928,876  |

## DeSoto County Hospital District

### Notes to Financial Statements

---

#### **Note 3. Charity Care**

The Hospital maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges forgone for services and supplies furnished under its charity care policy of approximately \$19,822,000 for the year ended September 30, 2025.

A patient is classified as a charity patient based on established policies of the Hospital. These policies define charity services as those services for which no payment is due for all or a portion of the patient's bill from either the patient or other third parties. The Hospital utilizes an application process that includes certain financial information from the requesting patient. Under this policy, in assessing a patient's ability to pay, the patient's financial information is evaluated in comparison to federal poverty income levels as well as the relationship between the charges and the patient's income. For financial reporting purposes, such amounts are classified as charity care and excluded from patient service revenue.

#### **Note 4. Risk Management**

**Professional liability:** The District is a subdivision of the State of Florida and has all of the protections of sovereign immunity in tort actions. Therefore, in accordance with Florida laws, the District is not liable to pay a claim by or judgment to any individual that exceeds the sum of \$200,000 or any claim and judgment, or portions thereof that, when totaled with all other claims or judgments paid by the State or its agencies and subdivisions arising out of the same incidence or occurrence, exceeds the sum of \$300,000. Judgments and claims rendered in excess of these limits must be approved by the Florida legislature and the governor of the State of Florida. The District is not aware of any claims that are expected to result in payments in excess of the sovereign immunity limits.

Operations are charged with the cost of claims reported and an estimate of claims incurred but not reported. A liability for unpaid claims and the associated claim expenses, including incurred but not reported losses, is actuarially determined and reflected in the statement of net position as an accrued liability.

The District has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued malpractice losses have been discounted using a discount rate of 4% for 2025 and, in management's opinion, provide an adequate reserve for loss contingencies. The determination of such claims and expenses and the appropriateness of the related liability is continually reviewed and updated. Professional liability claims payable, including an estimate for incurred but not reported claims, was approximately \$935,000 as of September 30, 2025.

Expenses under the program were approximately \$20,000 for the year ended September 30, 2025. The self-insurance reserves of the District was funded at approximately \$206,000 as of September 30, 2025.

**Health insurance:** The District is self-insured for employee group health insurance. The District maintains reinsurance through a commercial excess coverage policy, which covers annual individual employee claims paid in excess of \$75,000.

Total gross expenses under this program amounted to approximately \$2,656,000 for the year ended September 30, 2025. Group health insurance claims payable, including an estimate for incurred but not reported claims, was \$300,000 as of September 30, 2025, and is reported in other current liabilities in the statement of net position. Based on historical experience, management believes that the established liabilities are sufficient to cover reported claims and incurred but not reported claims.

## DeSoto County Hospital District

### Notes to Financial Statements

#### Note 4. Risk Management (Continued)

**General insurance:** The District maintains premium-based insurance policies for workers' compensation, director and officer liability, property and casualty, crime, automobile, cyber-security, environmental, fiduciary and executive risk.

A schedule of changes in the estimated liabilities for professional liability and employee health claims, including those held by Holdings, for the fiscal years ended September 30, 2025 and 2024, are as follows:

|                           | October 1,<br>2024  | Claims<br>Payment   | Claims<br>Expense<br>and Change<br>in Estimate | September 30,<br>2025 | Amounts<br>Due Within<br>One Year |
|---------------------------|---------------------|---------------------|------------------------------------------------|-----------------------|-----------------------------------|
| Professional liability    | \$ 964,515          | \$ 298,942          | \$ (328,048)                                   | \$ 935,409            | \$ 379,888                        |
| Employee health liability | 200,000             | 2,272,442           | (2,172,442)                                    | 300,000               | 300,000                           |

#### Note 6. Long-Term Debt

A schedule of changes in long-term debt as of and for the year ended September 30, 2025, consists of the following:

|                   | October 1,<br>2024   | Additions         | Reductions            | September 30,<br>2025 | Amounts<br>Due Within<br>One Year |
|-------------------|----------------------|-------------------|-----------------------|-----------------------|-----------------------------------|
| USDA mortgage     | \$ 11,173,618        | \$ -              | \$ (4,813,946)        | \$ 6,359,672          | \$ 977,744                        |
| Lease liabilities | 1,495,432            | 188,140           | (378,091)             | 1,305,481             | 385,311                           |
| Other             | 3,962,322            | 110,498           | (724,940)             | 3,347,880             | 712,015                           |
| Total             | <u>\$ 16,631,372</u> | <u>\$ 298,638</u> | <u>\$ (5,916,977)</u> | <u>\$ 11,013,033</u>  | <u>\$ 2,075,070</u>               |

**USDA mortgage:** The U.S. Department of Agriculture (USDA) Rural Development provided funds for a renovation and construction project, which was completed in March 2009. After project completion, a promissory note was finalized for a total of \$20 million. Annual payments of approximately \$1.2 million are required, including interest at 4.125% through June 2031. An additional \$4 million unscheduled payment was made during the current fiscal year to reduce the year-end liability balance.

The mortgage payable is secured by a first mortgage security interest on real estate, improvements, a purchase money lien on all equipment, furniture and fixtures and a first lien on all revenues and accounts receivable of the District.

The mortgage payable, resulting from direct borrowings, contains provisions that, in the event of default, the lender may: (a) declare the entire amount unpaid under the note, and any indebtedness to lender, immediately due and payable, (b) declare the District incur and pay reasonable expenses for repair or maintenance of and take possession of, operate or rent the property under borrowing, (c) foreclose and sell the property and use the proceeds in accordance with the agreement, and (d) enforce any and all other rights and remedies provided within the agreement or by present or future laws.

A loan resolution security agreement contains certain provisions, including a requirement that a reserve account be funded at \$121,800 per annum until such reserve account has a balance the equivalent of one year's principal and interest payment of approximately \$1,218,000. As of September 30, 2025, the balance in the reserve account was approximately \$1,240,000 and is included in assets limited as to use; restricted on the statement of net position. The District opted to cease funding of the reserve account in July of 2014, which was allowed under terms of the agreement, but the District does fund the reserve account with any excess cash available from the sales taxes levied. Also included in assets limited as to use are the unspent proceeds of the sales tax revenues restricted for debt service in the amount of approximately \$1,901,000 as of September 30, 2025.

| Years ending September 30: |                     |                   |                     |
| 2026                       | \$ 977,744          | \$ 240,056        | \$ 1,217,800        |
| 2027                       | 1,014,651           | 203,149           | 1,217,800           |
| 2028                       | 1,070,786           | 147,014           | 1,217,800           |
| 2029                       | 1,092,696           | 125,104           | 1,217,800           |
| 2030                       | 1,133,941           | 83,859            | 1,217,800           |
| 2031                       | 1,069,854           | 41,057            | 1,110,911           |
|                            | <u>\$ 6,359,672</u> | <u>\$ 840,239</u> | <u>\$ 7,199,911</u> |

**Lease liabilities:** In connection with GASB 87, *Leases*, the District recorded lease liabilities and right-of-use lease assets for buildings and equipment when the terms are for a period of one year or greater.

Future required lease principal and interest payments are as follows:

|                            | Principal           | Interest          | Total               |
|----------------------------|---------------------|-------------------|---------------------|
| Years ending September 30: |                     |                   |                     |
| 2026                       | \$ 385,311          | \$ 62,158         | \$ 447,469          |
| 2027                       | 381,240             | 42,082            | 423,322             |
| 2028                       | 263,154             | 24,515            | 287,669             |
| 2029                       | 264,087             | 8,547             | 272,634             |
| Thereafter                 | 11,689              | 68                | 11,757              |
|                            | <u>\$ 1,305,481</u> | <u>\$ 137,370</u> | <u>\$ 1,442,851</u> |

**Other:** The District has other long-term debt obligations for various equipment purchases which are payable in monthly installments of approximately \$1,000 to \$13,100, including interest at an average rate of 5.6% to 7.6%. These obligations are secured by equipment.

The other long-term debt obligations resulting from direct borrowings contain provisions that, in the event of default, lenders may: (a) declare the entire amount unpaid under the note and any indebtedness to lenders be immediately due and payable, (b) assess late charge fees in accordance with the agreements, (c) take possession of and sell, operate or dispose of the equipment, and (d) enforce any and all other rights and remedies provided within the agreement or by present or future laws.

## DeSoto County Hospital District

### Notes to Financial Statements

#### Note 6. Long-Term Debt (Continued)

Scheduled principal and interest payments on the equipment loans, which were outstanding as of September 30, 2025, are as follows:

|                            | Direct Borrowings   |                   |                     |
|----------------------------|---------------------|-------------------|---------------------|
|                            | Principal           | Interest          | Total               |
| Years ending September 30: |                     |                   |                     |
| 2026                       | \$ 712,015          | \$ 190,269        | \$ 902,284          |
| 2027                       | 812,358             | 154,261           | 966,619             |
| 2028                       | 808,840             | 99,185            | 908,025             |
| 2029                       | 743,363             | 47,476            | 790,839             |
| 2030                       | 248,496             | 5,946             | 254,442             |
| 2031-2032                  | 22,808              | 648               | 23,456              |
|                            | <u>\$ 3,347,880</u> | <u>\$ 497,785</u> | <u>\$ 3,845,665</u> |

#### Note 7. Subscription Based Information Technology Arrangements (SBITAs)

**SBITA liabilities:** In connection with the adoption of GASB 96, *SBITAs*, the District recognized a SBITA liability and a right-of-use asset for agreements in which District has the right-of-use another party's information technology software, alone or in combination with tangible capital assets for a period of one year or greater.

SBITA activity for the year ended September 30, 2025, consisted of the following:

|                   | October 1,<br>2024  | Additions   | Reductions          | September 30,<br>2025 | Amounts<br>Due Within<br>One Year |
|-------------------|---------------------|-------------|---------------------|-----------------------|-----------------------------------|
| SBITA liabilities | <u>\$ 2,542,397</u> | <u>\$ -</u> | <u>\$ (666,392)</u> | <u>\$ 1,876,005</u>   | <u>\$ 822,036</u>                 |

Future required SBITA principal and interest payments are as follows:

|                            | Principal           | Interest          | Total               |
|----------------------------|---------------------|-------------------|---------------------|
| Years ending September 30: |                     |                   |                     |
| 2026                       | \$ 822,036          | \$ 119,275        | \$ 941,311          |
| 2027                       | 962,368             | 51,331            | 1,013,699           |
| 2028                       | 91,601              | 6,412             | 98,013              |
|                            | <u>\$ 1,876,005</u> | <u>\$ 177,018</u> | <u>\$ 2,053,023</u> |

### Notes to Financial Statements

---

#### Note 8. Compensated Absences Liability

Compensated absences liability activity for the year ended September 30, 2025, follows:

| October 1,<br>2024 | Net Change* | September 30,<br>2025 | Amounts Due<br>in One Year |
|--------------------|-------------|-----------------------|----------------------------|
| \$ 1,046,630       | \$ 106,382  | \$ 1,153,012          | \$ 1,153,012               |

Compensated absences liability balances are reported as accrued payroll and compensating absences liability on the statement of net position.

\*The change in compensated absences above is a net change for the year.

#### Note 9. Commitments and Contingencies

**Pension cost:** DMHI has a defined contribution plan administered by the Variable Annuity Life Insurance Company, Inc. The plan requires annual contributions equal to 4% of eligible salaries. Effective July 1, 2010, when the Hospital was transferred to the District, this plan was frozen and the District adopted a 401(a) defined contribution plan with essentially the same provisions as the DMHI plan. Effective January 1, 2014, the contribution was changed whereby the District will match employee contributions up to 3%. Retirement costs under the plans for the year ended September 30, 2025, were approximately \$317,000.

**Grant programs:** The District participates in various grant programs which are subject to program compliance audits by the grantors. Accordingly, the District's compliance with applicable grant requirements will be established at a future date. The amount of expenses which may be disallowed by the granting agencies cannot be determined at this time, although the District anticipates such amounts, if any, will not be material.

**Regulatory and compliance matters—general regulatory compliance:** The health care industry is subject to voluminous and complex laws and regulations of federal, state and local governments. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement laws and regulations, anti-kickback and anti-referral laws and false claims prohibitions. In recent years, government activity has increased with respect to investigations and allegations concerning possible violations of reimbursement, false claims, anti-kickback and anti-referral statutes and other regulations by health care providers.

**Recovery audit contractor program:** Recovery audit contractors (RACs) search for potentially improper Medicare payments that may have been made to health care providers and that were not detected through existing Centers for Medicare and Medicaid Services program integrity efforts. The Hospital deducts from revenue amounts assessed by RACs at the time a notice is received, until such time that estimates of net amounts due can be reasonably estimated. Future RAC assessments against the Hospital are anticipated; however, the outcome of such assessments is unknown and cannot be reasonably estimated.

### Notes to Financial Statements

---

#### **Note 10. Adopted and Unadopted Accounting Standards**

In 2022, GASB issued Statement No. 101, *Compensated Absences*. This statement provides guidance updating the recognition and measurement guidance for compensated absences. The District adopted GASB Statement No. 101, *Compensated Absences*, which did not have a significant impact on the District's financial statements for the year ended September 30, 2025.

In 2023, GASB issued Statement No. 102, *Certain Risk Disclosures*. This statement provides guidance for disclosing essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The District adopted GASB Statement No. 102, *Certain Risk Disclosures*, which did not have a significant impact on the District's financial statements for the year ended September 30, 2025.

In 2024, GASB issued Statement No. 103, *Financial Reporting Model Improvements*. This statement focuses on improving the financial reporting for state and local governments. The requirements of this statement are effective for fiscal years beginning after June 15, 2025. Management has not yet determined the impact of this statement on the financial statements.

In 2024, GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*. This statement provides guidance for state and local governments on how to disclose specific types of capital assets in their financial reports. The requirements of this statement are effective for fiscal years beginning after June 15, 2025. Management has not yet determined the impact of this statement on the financial statements.

In 2025, GASB issued Statement No. 105, *Subsequent Events*. This improves the financial reporting requirements for subsequent events by clarifying the evaluation period, refining the distinction between recognized and non-recognized subsequent events, and enhancing disclosure expectations. The requirements of this statement are effective for fiscal years beginning after June 15, 2026. Management has not yet determined the impact of this statement on the financial statements.

#### **Note 11. Subsequent Event**

During fiscal year 2025, the District initiated an evaluation of strategic options in response to adverse financial and regulatory conditions. Following outreach and discussions with governmental agencies, tertiary care providers and national health care systems, the District's Board issued a request for proposals seeking potential long-term solutions for the District's operations. Multiple proposals were received and reviewed.

After a comprehensive evaluation process, including public hearings, the Board selected a proposal from Tampa General Hospital to lease the District's facility and hospital operations. A Letter of Intent was executed on January 9, 2026, and due diligence procedures are currently underway. Based on the anticipated timeline, the lease is expected to commence by July 1, 2026.

**Report on Internal Control Over Financial Reporting and on Compliance  
and Other Matters Based on an Audit of Financial Statements Performed  
in Accordance With Government Auditing Standards**

**Independent Auditor's Report**

Board of Directors  
DeSoto County Hospital District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of DeSoto County Hospital District (the District), as of and for the year ended September 30, 2025, and the related notes to the financial statements which collectively comprise the District's basic financial statements, and have issued our report thereon dated April 13, 2026.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2025-001, 2025-002 and 2025-003 that we consider to be material weaknesses.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**The District's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*RSM US LLP*

Fort Lauderdale, Florida

**Report on Compliance for Each Major Federal Program;  
Report on Internal Control Over Compliance; and Report on  
Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

**Independent Auditor's Report**

Board of Directors  
DeSoto County Hospital District

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited DeSoto County Hospital District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended September 30, 2025. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2025.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the business-type activities of the District as of and for the year ended September 30, 2025, and have issued our report thereon dated April 13, 2026, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

See notes to schedule of expenditures of federal awards

## **DeSoto County Hospital District**

### **Notes to the Schedule of Expenditures of Federal Awards Fiscal Year Ended September 30, 2025**

---

#### **Note 1. Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of DeSoto County Hospital District (the District), under programs of the federal government for the year ended September 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

#### **Note 2. Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

#### **Note 3. Indirect Cost Rate**

The District has elected not to use the 10% de minimis indirect cost rate for awards prior to October 1, 2024 nor the 15% de minimis indirect cost rate for awards on or after October 1, 2024, as allowed under Uniform Guidance.

#### **Note 4. Indirect Cost Rate Noncash Assistance, Insurance, Loans and Loan Guarantees Outstanding**

There was a \$20,000,000 direct U.S Department of Agriculture (USDA) loan originally issued in June 2006. This loan was issued for the construction and expansion of the District's hospital facilities. The outstanding amount of the loan is \$6,359,672 as of September 30, 2025, and the loan matures in June 2031. In accordance with guidance issued by the USDA, the amount included for the USDA expenditures in the Schedule for the year ended September 30, 2025, is \$11,173,618, which represents the balance of the USDA loan as of October 1, 2024 (i.e., beginning of the audit period) plus the value of new loans received during the year ended September 30, 2025, which was zero.

**Schedule of Findings and Questioned Costs (Continued)**  
**Fiscal Year Ended September 30, 2025**

---

**Section II. Financial Statement Findings**

**Compliance**

No matters were reported.

**Internal Controls**

**2025-001—Segregation of Duties**

**Criteria:** An effective system of controls include the proper segregation of duties within the financial reporting and accounting process.

**Condition:** We noted that an employee had access rights to initiate and post journal entries without a second approver. Additionally, there was no evidence of management's review of the detailed period comparison report that list journal entries and transaction activity for the month.

**Cause:** The system of internal controls is not designed to allow for the proper segregation of duties.

**Effect or Potential Effect:** Improper segregation of duties could result in the misstatement of the financial statements and the misappropriation of assets.

**Recommendation:** We recommend that management review the design of established controls and implement the changes necessary to allow for the proper segregation of duties within the financial reporting and accounting process. This would include that each journal entry requires an initiator and an approver for posting.

**Views of Responsible Officials:** Management agrees with the finding and has developed a corrective action plan.

**DeSoto County Hospital District**

**Schedule of Findings and Questioned Costs (Continued)**  
**Fiscal Year Ended September 30, 2025**

---

**2025-002—Bank Reconciliations**

**Criteria:** An effective system of controls requires the timely reconciliation of bank accounts monthly.

**Condition:** We noted that bank accounts were not reconciled timely during the year. This resulted in several unreconciled cash transactions as of the year ended.

**Cause:** The District experienced turnover in staffing in the current year which resulted in the bank accounts not being reconciled in a timely manner, to allow for the proper recording of transactions on an ongoing basis.

**Effect or Potential Effect:** This resulted in several unreconciled cash transactions as of the year ended. This could also result in the misappropriation of assets.

**Recommendation:** We recommend that management review the design of established controls and implement the changes necessary to allow for the timely reconciliation of bank accounts on an ongoing basis.

**Views of Responsible Officials:** Management agrees with the finding and has developed a corrective action plan.

**DeSoto County Hospital District**

**Schedule of Findings and Questioned Costs (Continued)**  
**Fiscal Year Ended September 30, 2025**

---

**2025-003—Financial Reporting Process**

**Criteria:** Internal control policies and procedures should provide reasonable assurance regarding the reliability of the financial reporting process, including the timely recording and disclosure of accounting transactions.

**Condition:** There were passed adjustments reported and post-closing audit adjustments recorded that affected the following financial statement balances at year-end:

Post-closing audit adjustments

- Cash
- Expenses
- Revenues
- Receivables and related allowances
- Accounts payable

Passed audit adjustments

- Cash
- Expenses
- Accounts payable
- Prepaid expenses
- Compensated absences

**Cause:** The District experienced turnover in staffing in the current year which resulted in account balances not being reconciled in a timely manner and errors not being identified during the financial reporting close process.

**Effect or Potential Effect:** The financial statements were adjusted to properly report balances at year-end.

**Recommendation:** We recommend that management review the design of established controls and implement the changes necessary to allow for the timely recording and disclosure of accounting transactions on an ongoing basis.

**Views of Responsible Officials:** Management agrees with the finding and has developed a corrective action plan.

**Section III. Federal Award Findings and Questioned Costs**

No matters were reported.

## **DESOTO COUNTY HOSPITAL DISTRICT**

### **SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED SEPTEMBER 30, 2025**

#### **Identifying Number: 2024-001—Segregation of Duties**

Audit Finding: We noted that an employee had access rights to initiate and post journal entries without a second approver. Additionally, there was no evidence of management's review of the detailed period comparison report that list journal entries and transaction activity for the month.

Status: Corrective action was not taken. See current year finding 2025-001—Segregation of Duties

Planned Corrective Action: Management agrees with the finding and has developed a corrective action plan. To address the finding from the audit regarding the lack of segregation of duties in the journal entry process, management will implement a comprehensive corrective plan. Management will conduct a thorough review of current roles, and implement a policy that mandates a second, independent approver for all journal entries before they are posted. Additionally, management will ensure regular reviews of the period comparison report to verify the accuracy and appropriateness of journal entries and will also develop a standardized review process for management to follow. Training will also be provided to all staff involved in the journal entry process to stress the importance of segregation of duties. Executive management will continue their high-level review of financial transactions and activity.

#### **Identifying Number: 2024-002—Bank Reconciliations**

Audit Finding: We noted that bank accounts were not reconciled for the period from December 2023 through September 2024. This resulted in several unreconciled cash transactions as of the year ended.

Status: Corrective action was not taken. See current year finding 2025-002— Bank Reconciliations

Planned Corrective Action: Management agrees with the finding and has developed a corrective action plan. Management will set a firm schedule for monthly bank reconciliations, ensuring that all bank accounts are reconciled within a specified timeframe after the end of each month. Additionally, management will create standardized procedures for performing bank reconciliations, including instructions on how to identify and resolve any outstanding items. Management will review monthly bank reconciliations to ensure any discrepancies are identified and resolved promptly.

**Identifying Number: 2024-003—Financial Reporting Process**

Audit Finding: Post-closing audit adjustments were made to the financial statements to properly report the following balances at year-end:

- Expenses
- Revenues
- Loans payable
- Accounts payable
- Lease liabilities and right-of-use assets
- Accounts receivables and related allowance
- Subscription-based information technology arrangement liabilities and right-of-use assets

Status: Partially corrected. See current year finding 2025-003—Financial Reporting Process

Planned Corrective Action: Management agrees with the finding and has developed a corrective action plan. Management will implement comprehensive period-end closing procedures to ensure all necessary adjustments and reconciliations are completed before the financial statements are finalized. Additionally, management will implement regular reconciliations and reviews of any adjustments and supporting documentation before period-end entries are posted for the listed accounts above. Finally, management will provide targeted training for accounting and finance staff on the importance of accurate and timely financial reporting, as well as any new U.S. GAAP requirements.

**DESOTO COUNTY HOSPITAL DISTRICT**

**DISTRICT CORRECTIVE ACTION PLAN  
FOR THE YEAR ENDED SEPTEMBER 30, 2025**

**Finding 2025-001—Segregation of Duties**

Finding: We noted that an employee had access rights to initiate and post journal entries without a second approver. Additionally, there was no evidence of management's review of the detailed period comparison report that list journal entries and transaction activity for the month.

Corrective Actions Taken or Planned: Management agrees with the finding and has developed a corrective action plan. To address the finding from the audit regarding the lack of segregation of duties in the journal entry process, management will implement a comprehensive corrective plan. Management will conduct a thorough review of current roles, and implement a policy that mandates a second, independent approver for all journal entries before they are posted. Additionally, management will ensure regular reviews of the period comparison report to verify the accuracy and appropriateness of journal entries and will also develop a standardized review process for management to follow. Training will also be provided to all staff involved in the journal entry process to stress the importance of segregation of duties. Executive management will continue their high-level review of financial transactions and activity.

Anticipated Completion Date: June 30, 2026

### **Finding 2025-003—Financial Reporting Process**

Finding: There were passed adjustments reported and post-closing audit adjustments recorded that affected the following financial statement balances at year-end:

#### Post-closing audit adjustments

- Cash
- Expenses
- Revenues
- Receivables and related allowances
- Accounts payable

#### Passed audit adjustments

- Cash
- Expenses
- Accounts payable
- Prepaid expenses
- Compensated absences

Corrective Actions Taken or Planned: Management agrees with the finding and has developed a corrective action plan. Management will implement comprehensive period-end closing procedures to ensure all necessary adjustments and reconciliations are completed before the financial statements are finalized. Additionally, management will implement regular reconciliations and reviews of any adjustments and supporting documentation before period-end entries are posted for the listed accounts above. Finally, management will provide targeted training for accounting and finance staff on the importance of accurate and timely financial reporting, as well as any new U.S. GAAP requirements.

**Management Letter in Accordance with  
Chapter 10.550, Rules of the Auditor General of the State of Florida**

Board of Directors  
DeSoto County Hospital District

**Report on the Financial Statements**

We have audited the financial statements of the DeSoto County Hospital District (the District) as of and for the fiscal year ended September 30, 2025, and have issued our report thereon dated April 13, 2026.

**Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, *Rules of the Auditor General*.

**Other Reporting Requirements**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Section 218.415, Florida Statutes. Disclosures in those reports and schedules, which are dated April 13, 2026, should be considered in conjunction with this management letter.

**Prior Audit Findings**

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. There were no findings and recommendations made in the preceding financial audit report.

**Official Title and Legal Authority**

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The name or official title and legal authority is disclosed in Note 1 to the financial statements.

### Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

### Property Assessed Clean Energy (PACE) Programs

As required by Section 10.554(1)(i)6.a., *Rules of the Auditor General*, the District's management represented that the PACE program authorized pursuant to Section 163.081 or Section 163.082, Florida Statutes, did not operate within the District's geographical boundaries during the fiscal year under audit.

### Special District Component Units

Section 10.554(1)(i)5.c., *Rules of the Auditor General*, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

### Specific Information

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7., *Rules of the Auditor General*, the District reported:

- a. The total number of District employees compensated in the last pay period of the District's fiscal year as 290.
- b. The total number of independent contractors to whom nonemployee compensation was paid in the last month of the District's fiscal year as 25.
- c. All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency as \$23,335,733.
- d. All compensation earned by or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency as \$3,733,249.
- e. Each construction project with a total cost of at least \$65,000 approved by the District that is scheduled to begin on or after October 1 of the fiscal year being reported, together with the total expenditures for such project. This information is included in the schedule below.

| Project Name                    | Budget       | Total Expenditures |
|---------------------------------|--------------|--------------------|
| Chiller Project                 | \$ 93,864    | \$ 93,864          |
| Hospital Reconstruction Project | \$ 1,609,463 | \$ 1,609,463       |

- f. A budget variance based on the budget adopted under Section 189.016(4), Florida Statutes, before the beginning of the fiscal year being reported if the District amends a final adopted budget under Section 189.016(6), Florida Statutes. This information is included in Appendix A.

**Additional Matters**

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or fraud, waste, or abuse, that has occurred or is likely to have occurred, that has an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

**Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the District and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Accountant's Report**

Board of Directors  
DeSoto County Hospital District

We have examined the DeSoto County Hospital District's (the District) compliance with the local government investment policy requirements of Section 218.415, *Florida Statutes* (the specified requirements) during the period October 1, 2024 to September 30, 2025. Management of the District is responsible for the District's compliance with the specified requirements. Our responsibility is to express an opinion on the District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the AICPA. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the District's compliance with the specified requirements.

In our opinion, the District complied, in all material respects, with the specified requirements during the period October 1, 2024 to September 30, 2025.

This report is intended solely for the information and use of the Florida Auditor General, the District and applicable management and is not intended to be, and should not be, used by anyone other than these specified parties.
