## INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors  
Tolomato Community Development District  
St. Johns and Duval Counties, Florida

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the governmental activities, and each major fund of Tolomato Community Development District, St. Johns and Duval Counties, Florida ("District") as of and for the fiscal year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund of the District as of September 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Responsibilities of Management for the Financial Statements*

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### *Auditor's Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information Included in the Financial Report***

Management is responsible for the other information included in the financial report. The other information comprises the information for compliance with FL Statute 218.39 (3) (c), but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 27, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Tolomato Community Development District, St. Johns and Duval Counties, Florida ("District") provides a narrative overview of the District's financial activities for the fiscal year ended September 30, 2025. Please read it in conjunction with the District's Independent Auditor's Report, basic financial statements, accompanying notes and supplementary information to the basic financial statements.

### FINANCIAL HIGHLIGHTS

- The liabilities of the District exceeded its assets at the close of the most recent fiscal year resulting in a net position deficit balance of (\$66,693,322).
- The change in the District's total net position in comparison with the prior fiscal year was \$84,544,656, an increase. The key components of the District's net position and change in net position are reflected in the table in the government-wide financial analysis section.
- At September 30, 2025, the District's governmental funds reported combined ending fund balances of \$17,866,485, a decrease of (\$7,151,753) in comparison with the prior fiscal year. A portion of the fund balance is non-spendable for prepaid and deposit items, restricted for debt service and capital projects, assigned to infrastructure reserves, landscaping reserves and subsequent year's expenditures, and the remainder is unassigned fund balance which is available for spending at the District's discretion.

### OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as the introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual amount being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include all governmental activities that are principally supported by special assessment. The District does not have any business-type activities. The governmental activities of the District include the general government (management), maintenance, roadways, environmental, and recreational functions.

#### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: governmental funds.

## OVERVIEW OF FINANCIAL STATEMENTS (Continued)

### Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflow of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains three governmental funds for external reporting. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund and capital projects fund, all of which are considered major funds.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of the District, liabilities exceeded assets at the close of the most recent fiscal year.

Key components of the District's net position are reflected in the following table:

	NET POSITION	
	SEPTEMBER 30,	
	2025	2024
Current and other assets	\$ 20,069,957	\$ 25,544,168

Total assets	135,491,006	131,692,376
Current liabilities	5,224,113	24,843,469
Long-term liabilities	196,960,215	258,086,885
Total liabilities	202,184,328	282,930,354

Net investment in capital assets	(81,002,507)	(151,147,367)
Restricted	9,662,637	19,155,691
Unrestricted	4,646,548	(19,246,302)
Total net position	\$ (66,693,322)	\$ (151,237,978)

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The District's net position reflects its investment in capital assets (e.g. land, land improvements, and infrastructure) less any related debt used to acquire those assets that is still outstanding. These assets are used to provide services to residents; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

The District's net position increased during the most recent fiscal year. The majority of the increase is the result of the gain on the cancellation of debt.

Key elements of the change in net assets are reflected in the following table:

CHANGES IN NET POSITION		
FOR THE FISCAL YEAR ENDED SEPTEMBER 30,		
	2025	2024
Revenues:		
Program revenues		
Charges for services	\$ 29,604,192	\$ 35,288,267

Conveyance of infrastructure	4,736,421	20,127,265
Interest	7,719,804	10,494,666
Bond issuance costs	368,839	-
Total expenses	<u>27,139,205</u>	<u>44,479,909</u>
Special item - gain on the cancellation of debt	75,270,912	-
Change in net position	<u>84,544,656</u>	<u>35,238,338</u>
Net position - beginning	<u>(151,237,978)</u>	<u>(186,476,316)</u>
Net position - ending	<u>\$ (66,693,322)</u>	<u>\$ (151,237,978)</u>

As noted above and in the statement of activities, the cost of all governmental activities during the fiscal year ended September 30, 2025 was \$27,139,205. The costs of the District's activities were primarily funded by program revenues. Program revenues are comprised of assessments; non-cash Developer contributions; impact fees; interest revenue; recreation fees and charges; and miscellaneous income. The majority of the decrease in program revenues is due to the decrease in non-cash contributions from the Master Developer. The decrease in total current year expenses is primarily the result of the decrease in conveyances of assets to other entities.

## GENERAL BUDGETING HIGHLIGHTS

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. The general fund budget for the fiscal year ended September 30, 2025 was amended to increase revenues by \$55,838; appropriations by \$559,785; and other financing sources by \$38,980. Actual general fund expenditures for the fiscal year ended September 30, 2025 exceeded appropriations by \$431,844. The over expenditures were funded by available fund balance.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

At September 30, 2025, the District had \$146,647,072 invested in capital assets for its governmental activities. In the government-wide financial statements depreciation of \$31,226,023 has been taken, which resulted in a net book value of \$115,421,049. More detailed information about the District's capital assets is presented in the notes of the financial statements.

### Capital Debt

At September 30, 2025, the District had \$195,900,000 in Bonds outstanding for its governmental activities. Additionally, the District had \$133,901 in lease liability, and \$27,725 in Developer advances. More detailed information about the District's capital debt is presented in the notes of the financial statements.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND OTHER EVENTS

For the subsequent fiscal year, the District anticipates that the cost of general operations will remain fairly constant.

## CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, landowners, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the financial resources it manages and the stewardship of the facilities it maintains. If you have questions about this report or need additional financial information, contact the Tolomato Community Development District's Finance Department at 245 Nocatee Center Way, Ponte Vedra, Florida, 32081.

**TOLOMATO COMMUNITY DEVELOPMENT DISTRICT  
ST. JOHNS AND DUVAL COUNTIES, FLORIDA  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 – NATURE OF ORGANIZATION AND REPORTING ENTITY**

Tolomato Community Development District ("District") was established pursuant to Rule 42SS-1, Florida Administrative Code, adopted by the Florida Land and Water Adjudicatory Commission effective July 29, 2004. The Act provides among other things, the power to manage basic services for community development, power to borrow money and issue Bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by the Board of Supervisors ("Board"), which is composed of five members. The Supervisors are elected by the registered voters within the District. The Board of Supervisors of the District exercise all powers granted to the District pursuant to Chapter 190, Florida Statutes. SONOC Company, LLC ("Master Developer") is the master developer in the Nocatee DRI. The Master Developer has retained Nocatee Development Company ("NDC") to provide comprehensive management of the development. NDC's shareholders are also principals in The PARC Group, Inc. ("PARC"), a real estate development company in Northeast Florida. The Chairman of the Board of Supervisors of the District is a shareholder of NDC.

The Board has the responsibility for:

1. Assessing and levying assessments.
2. Approving budgets.
3. Exercising control over facilities and properties.
4. Controlling the use of funds generated by the District.
5. Approving the hiring and firing of key personnel.
6. Financing improvements.

The financial statements were prepared in accordance with Governmental Accounting Standards Board ("GASB") Statements. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District is considered to be financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Government-Wide and Fund Financial Statements**

The basic financial statements include both government-wide and fund financial statements.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Government-Wide and Fund Financial Statements (Continued)**

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; operating-type special assessments for maintenance and debt service are treated as charges for services and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not included among program revenues are reported instead as *general revenues*.

### **Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are to be recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

### **Assessments**

Assessments are non-ad valorem assessments on certain land and all platted lots within the District. Assessments are levied each November 1 on property of record as of the previous January. The fiscal year for which annual assessments are levied begins on October 1 with discounts available for payments through February 28 and become delinquent on April 1. For debt service assessments, amounts collected as advance payments are used to prepay a portion of the Bonds outstanding. Otherwise, assessments are collected annually to provide funds for the debt service on the portion of the Bonds which are not paid with prepaid assessments.

Assessments and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. The portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period.

The District reports the following major governmental funds:

### **General Fund**

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

### **Debt Service Fund**

The debt service fund is used to account for the accumulation of resources for the annual payment of principal and interest on long-term debt.

### **Capital Projects Fund**

This fund accounts for the financial resources to be used for the acquisition or construction of major infrastructure within the District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

## **NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

### **Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)**

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first for qualifying expenditures, then unrestricted resources as they are needed.

### **Assets, Liabilities and Net Position or Equity**

#### Restricted Assets

These assets represent cash and investments set aside pursuant to Bond covenants or other contractual restrictions.

#### Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and demand deposits (interest and non-interest bearing).

The District has elected to proceed under the Alternative Investment Guidelines as set forth in Section 218.415 (17) Florida Statutes. The District may invest any surplus public funds in the following:

- a) The Local Government Surplus Trust Funds, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act;
- b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- c) Interest bearing time deposits or savings accounts in qualified public depositories;
- d) Direct obligations of the U.S. Treasury.

The State Board of Administration's ("SBA") Local Government Surplus Funds Trust Fund ("Florida PRIME") is a "2a-7 like" pool. A "2a-7 like" pool is an external investment pool that is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940, which comprises the rules governing money market funds. Thus, the pool operates essentially as a money market fund. The District has reported its investment in Florida PRIME at amortized cost for financial reporting purposes.

Securities listed in paragraph c and d shall be invested to provide sufficient liquidity to pay obligations as they come due.

The District records all interest revenue related to investment activities in the respective funds. Investments are measured at amortized cost or reported at fair value as required by generally accepted accounting principles.

#### Inventories and Prepaid Items

Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Assets, Liabilities and Net Position or Equity (Continued)

#### Capital Assets

Capital assets which include property, plant and equipment, and infrastructure assets (e.g., roads, sidewalks and similar items) are reported in the government activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years, except for intangible right-to-use assets, discussed in Leases below. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed, except for intangible right-to-use assets, the measurement of which is discussed in Leases below. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Furniture and equipment	5
Maintenance and recreational facilities	10 - 20
Infrastructure	15 - 40
Right to use leased assets	5

In the governmental fund financial statements, amounts incurred for the acquisition of capital assets, including right to use leased assets, are reported as fund expenditures. Depreciation expense is not reported in the governmental fund financial statements.

#### Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned.

#### Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused sick leave and vacation leave benefits. All sick and vacation leave is accrued when earned in the government-wide fund financial statements. Liability for accrued compensated absences of the governmental activities is not reported in the balance sheet of the governmental funds and, accordingly, represents a reconciling item between the fund and government-wide presentations. Payments are generally paid out of the general fund.

#### Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized ratably over the life of the Bonds. Bonds payable are reported net of applicable premiums or discounts. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Assets, Liabilities and Net Position or Equity (Continued)

#### Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

#### Leases

The District is a lessee for a noncancellable lease of several streetlights. The District recognizes a lease liability and an intangible right-to-use leased asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long term debt on the statement of net position.

#### Fund Equity/Net Position

In the fund financial statements, governmental funds report non spendable and restricted fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change.

The District can establish limitations on the use of fund balance as follows:

Committed fund balance – Amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Board of Supervisors. Commitments may be changed or lifted only by the Board of Supervisors taking the same formal action (resolution) that imposed the constraint originally. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

Assigned fund balance – Includes spendable fund balance amounts established by the Board of Supervisors that are intended to be used for specific purposes that are neither considered restricted nor committed. The Board may also assign fund balance as it does when appropriating fund balance to cover differences in estimated revenue and appropriations in the subsequent year's appropriated budget. Assignments are generally temporary and normally the same formal action need not be taken to remove the assignment.

## **NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

### **Assets, Liabilities and Net Position or Equity (Continued)**

#### Fund Equity/Net Position (Continued)

The District first uses committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net position is the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position in the government-wide financial statements are categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents net position related to infrastructure and property, plant and equipment. Restricted net position represents the assets restricted by the District's Bond covenants or other contractual restrictions. Unrestricted net position consists of the net position not meeting the definition of either of the other two components.

### **Other Disclosures**

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

## **NOTE 3 – BUDGETARY INFORMATION**

The District is required to establish a budgetary system and an approved Annual Budget. Annual Budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. All annual appropriations lapse at fiscal year-end.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- a) Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
- b) Public hearings are conducted to obtain public comments.
- c) Prior to October 1, the budget is legally adopted by the District Board.
- d) All budget changes must be approved by the District Board.
- e) The budgets are adopted on a basis consistent with generally accepted accounting principles.
- f) Unused appropriation for annually budgeted funds lapse at the end of the year.

## **NOTE 4 – DEPOSITS AND INVESTMENTS**

### **Deposits**

The District's cash balances were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

## NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

### Investments

The District's investments were held as follows at September 30, 2025:

	<u>Amortized Cost</u>	<u>Credit Risk</u>	<u>Maturities</u>
First American Government Obligations Fund - Class Z	\$ 11,597,820	S&P AAAM	Weighted average of the fund portfolio: 45 days
First American Treasury Obligations Fund - Class Z	4,915,895	S&P AAAM	Weighted average of the fund portfolio: 48 days
Investment in Local Government Surplus Funds Trust Fund (Florida PRIME)	2,226,974	S&P AAAM	Weighted average of the fund portfolio: 47 days
	<u>\$ 18,740,689</u>		

*Credit risk* – For investments, credit risk is generally the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investment ratings by investment type are included in the preceding summary of investments.

*Concentration risk* – The District places no limit on the amount the District may invest in any one issuer.

*Interest rate risk* – The District does not have a formal policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

However, the Bond Indenture limits the type of investments held using unspent proceeds.

*Fair Value Measurement* – When applicable, the District measures and records its investments using fair value measurement guidelines established in accordance with GASB Statements. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques.

These guidelines recognize a three-tiered fair value hierarchy, in order of highest priority, as follows:

- *Level 1: Investments* whose values are based on unadjusted quoted prices for identical investments in active markets that the District has the ability to access;
- *Level 2:* Investments whose inputs - other than quoted market prices - are observable either directly or indirectly; and,
- *Level 3:* Investments whose inputs are unobservable.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the entire fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Money market investments that have a maturity at the time of purchase of one year or less and are held by governments other than external investment pools should be measured at amortized cost. For external investment pools that qualify to be measured at amortized cost, the pool's participants should also measure their investments in that external investment pool at amortized cost for financial reporting purposes. Accordingly, the District's investments have been reported at amortized cost above.

## NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

### Investments (Continued)

*External Investment Pool* – With regard to redemption gates, Chapter 218.409(8)(a), Florida Statutes, states that “The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the Executive Director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the Trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council. The Trustees shall convene an emergency meeting as soon as practicable from the time the Executive Director has instituted such measures and review the necessity of those measures. If the Trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the Executive Director until the Trustees are able to meet to review the necessity for the moratorium. If the Trustees agree with such measures, the Trustees shall vote to continue the measures for up to an additional 15 days. The Trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the Trustees exceed 15 days.” With regard to liquidity fees, Florida Statute 218.409(4) provides authority for the SBA to impose penalties for early withdrawal, subject to disclosure in the enrollment materials of the amount and purpose of such fees. At present, no such disclosure has been made.

As of September 30, 2025, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant’s daily access to 100% of their account value.

## NOTE 5 – INTERFUND TRANSFERS

Interfund transfers for the fiscal year ended September 30, 2025 were as follows:

<u>Fund</u>	<u>Transfer in</u>	<u>Transfer Out</u>
General fund	\$ 38,980	\$ -
Debt service fund	-	142,975
Capital projects fund	103,995	-
Total	<u>\$ 142,975</u>	<u>\$ 142,975</u>

Transfers are used to move revenues from the fund where collection occurs to the fund where funds have been reallocated for use. In the case of the District, transfers from the debt service fund to the capital projects fund were made in accordance with the Bond Indentures. The amount transferred from the debt service fund to the general fund is remaining fund in the Series 2015 trust accounts when the Bonds were cancelled.

## NOTE 6 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended September 30, 2025 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities				
Capital assets, not being depreciated				
Land & land improvements	\$ 59,203,257	\$ 1,118,683	\$ (5,525)	\$ 60,316,415

Governmental activities capital assets	\$ 106,148,208	\$ 14,277,479	\$ (5,004,638)	\$ 115,421,049

### **Infrastructure improvements**

The total projected cost of the District's infrastructure improvements has been estimated at a total cost of \$561.7 million. Certain improvements, such as roadways and parks, have been conveyed to other governmental entities, and more will be conveyed upon completion of the project. Funding for the District's infrastructure has primarily been provided by various Bond issues. The portions of the project not financed through these bonds are expected to be financed by the Master Developer or with future bond proceeds.

During the current fiscal year, the District conveyed roadways and certain lands to other entities for maintenance and ownership responsibilities.

During the current fiscal year, the District acquired infrastructure from the Master Developer for a total cost of \$11,191,012 which includes a payable of \$1,511,643 at September 30, 2025.

During prior and current fiscal years, the Master Developer has donated land to the District to be used for recreational and entertainment purposes, ponds, and various right-of-ways. The land may not be used for any other purpose without the prior written consent of the Master Developer. Land received from the Master Developer during the current fiscal year had a total value of \$1,118,683.

The District has an agreement with the County for road impact fees. Under the terms of the agreement, the District collects road impact fees and will provide the County with an annual list of fees.

## NOTE 6 – CAPITAL ASSETS (Continued)

### **Construction Funding Agreements**

During a prior fiscal year, the District and the Master Developer entered into a Construction Funding and Deferred Costs Agreements whereby the Master Developer agreed to fund the construction of certain amenity center projects and the Master Developer has agreed to convey and transfer certain Parks to the District. In return, the District has agreed to provide reimbursement to the Master Developer of Master Developer's costs and expenses of developing and constructing the Parks. To the extent that the funding of the Project qualifies for reimbursement by the District to the Master Developer as deferred cost as defined in any Supplemental Trust Indenture, the District and the Master Developer reserve the right to reimburse the funding provided for with funds available and permitted to be used for such purpose whether such funds are presently available or become available in the future. There was no transaction between the District and the Master Developer under this agreement during the current fiscal year.

Additionally, in a prior fiscal year, the District and the Master Developer entered into another construction funding agreement whereby the Master Developer agreed to provide a maximum of \$375,000 to the District for the preliminary works for a water main loop. The District agreed to repay the Master Developer either in the form of (as elected by the Master Developer from time to time) (i) a cash reimbursement; or (ii) an assignment of impact fees credits. As of September 30, 2025, the Developer has funded a total of \$303,974 toward the preliminary works for the water main loop.

### **Impact Fee Credits Purchase Agreements**

In connection with the construction of certain roads, the District was granted approximately \$113.9 million in Road Impact Fee Credits under the Impact Fee Credit Agreement between the District and St. Johns County, Florida. The District wishes to proceed with the construction of certain roads (the "Projects"), which are major roadways that are necessary for the continued growth of the development within the District. In order to allow the District to proceed with the Projects, in the 2016 fiscal year, the Master Developer has agreed to purchase from the District Road Impact Fee Credits (the "Purchased Credits"). In exchange for the purchase of the Purchased Credits by the Master Developer, the District agreed to remit all impact fees collected first to the Master Developer until the Master Developer has recovered the dollar value of the Purchased Credits. The District and the Developer have entered into various other Impact Fee Credit Purchase Agreements whereby the District agreed to assign to the Developer Road Impact Fee Credits in order for the District to proceed with the construction of various landscape, hardscape improvements, and other infrastructure improvements. In accordance with this agreement, all revenue from impact fee purchases will be first paid to the Developer until the Developer has recovered the total amount spent on the improvements. During the current fiscal year, the Master Developer purchased or was assigned a total of \$4,424,774 of impact fee credits. As of September 30, 2025, the total impact fee credit sold or assigned to the Developer was \$61,240,656.

Depreciation expense was charged to function/programs as follows:

### Series 2015

In March 2015, the District issued \$77,555,000 Special Assessments Refunding Bonds, Series 2015 in exchange of its then outstanding Series 2007-2 Bonds. The Series 2015 Bonds were further comprised of the following term and convertible capital appreciations bonds:

Bond Components	Initial Amount	Maturity Amount	Interest Rate	Conversion Date	First Principal	First Coupon	Maturity Date
2015-1	\$ 30,165,277	\$ 48,040,000	6.610%	11/1/2021	5/1/2022	5/1/2022	**
2015-2	15,248,334	29,515,000	6.610%	11/1/2024	5/1/2025	5/1/2025	***
2015-3	32,140,000	32,140,000	6.610%	N/A	5/1/2015	5/1/2015	***

\*\* Refunded with the Series 2022A

\*\*\* Cancelled on November 4, 2024.

The Series 2015-1 and 2015-2 Bonds were Capital Appreciation Bonds, therefore interest accreted to the bond principals through the conversion date; no payments were due from landowners until then. Subsequent to the conversion date, these Bonds were at full value and periodic principal and interest payments were to begin according to the schedule above. However, when the Series 2015-1 Bonds fully accreted, they were refunded with the Series 2022A and 2022B Bonds. The Series 2015-2 Bonds fully accreted in the current year. After the District paid off \$7,965,000 of the Series 2015-2 Bonds the Trustee cancelled the remaining balance (\$21,550,000) on November 4, 2024. Concurrently, the Trustee cancelled the entirety of the Series 2015-3 Bonds. The total gain on cancellation of debt was \$75,270,912, including past due interest on the Series 2015-3 Bonds.

### Series 2018

On March 29, 2018, the District issued a total of \$52,040,000 of Special Assessment Refunding Bonds, Series 2018 comprised of the following:

Series	Par Amount	Interest Rate (%)	First Coupon	First Principal	Maturity Date
2018A-1	\$ 29,130,000	2.000 - 3.750	5/1/2018	5/1/2019	5/1/2040
2018A-2	8,095,000	5.200 - 5.625	5/1/2018	5/1/2019	5/1/2040
2018B-1	10,585,000	2.000 - 4.020	5/1/2018	5/1/2019	5/1/2039
2018B-2	4,230,000	4.625 - 5.125	5/1/2018	5/1/2019	5/1/2039

The Bonds are comprised of both serial and term Bonds. The Bonds were issued to refund the District's then outstanding Series 2012A-1 and 2012A-2 Bonds; acquire and construct certain assessable improvements (the "Project"); and pay certain costs associated with the issuance of the Bonds. Interest is to be paid semiannually on each May 1 and November 1. Principal on the Bonds is to be paid serially commencing May 1, 2019 through May 1, 2040.

The Series 2018 Bonds are subject to redemption at the option of the District prior to maturity. The Series 2018 Bonds are subject to extraordinary mandatory redemption prior to maturity in the manner determined by the Bond Registrar if certain events occurred as outlined in the Bond Indenture. This occurred during the current fiscal year as the District collected prepaid assessments and prepaid \$15,000 on the Series 2018B-1 Bonds.

The Bond Indenture established a debt service reserve requirement as well as other restrictions and requirements relating principally to the use of proceeds to pay for the infrastructure improvements and the procedures to be followed by the District on assessments to property owners. The District agrees to levy special assessments in annual amounts adequate to provide payment of debt service and to meet the reserve requirements. In addition, for the Series 2018A-1 and 2018B-1 Bonds, the Bond Indenture provides for a Reserve insurance policy to fund part of the debt service reserve requirements. The District was in compliance with the requirements at September 30, 2025.

## NOTE 8 – LEASES

In a prior year, the District entered into a lease as a lessee for the use of streetlights that terminates on February 15, 2027. As of September 30, 2025, the value of the lease liability is \$133,901. The District is required to make monthly fixed payments of \$8,977. The value of the right to use asset as of September 30, 2025 is \$447,052 with an accumulated amortization of \$330,132. At the end of the lease term, the District may elect to execute a new agreement based on current estimated replacement cost. The Lessor will retain ownership of the streetlights.

Minimum lease payments for years ending after September 30, 2025 are as follows:

Year ending September 30:	Principal	Interest	Total payments
2026	\$ 98,733	\$ 8,991	\$ 107,724
2027	35,168	739	35,907
Total	<u>\$ 133,901</u>	<u>\$ 9,730</u>	<u>\$ 143,631</u>

## NOTE 9 – DEVELOPERS' TRANSACTIONS

The Master Developer owns a significant portion of land within the District; therefore, assessment revenues in the general and debt service funds include the assessments levied on those lots owned by the Master Developer.

The District has contracted with PARC for construction management services at a cost of \$24,000 per calendar quarter.

See Notes 6 and 7 above for additional Master Developer transactions in the prior and current fiscal years.

## NOTE 10 – CONCENTRATION

The District's activity is dependent upon the continued involvement of the Master Developer, the loss of which could have a material adverse effect on the completion of the District's Master Infrastructure Plan.

## NOTE 11 – COST-SHARING AGREEMENT

The District has several Cost-Sharing Agreements with certain Homeowner Associations within the District, the Master Developer, and various other landowners.

## **NOTE 12 – RETIREMENT PLAN**

The District supports a 457(b) Governmental Plan that covers all eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants may contribute a percentage of their annual compensation to the plan not to exceed the limits allowable by the Internal Revenue Service. The District makes matching contributions equal to 100% on the first three percent of the participant's eligible earnings and an additional 50% on the next two percent of the participant's eligible earnings. Matching contributions to the plan during 2025 totaled approximately \$37,961.

## **NOTE 13 – MANAGEMENT COMPANY**

The District has contracted with a management company to perform management advisory services. Certain employees of the management company also serve as officers (Board appointed non-voting positions) of the District. Under the agreement, the District compensates the management company for management and other administrative costs.

## **NOTE 14 – RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained commercial insurance from independent third parties to mitigate the costs of these risks; coverage may not extend to all situations. There were no settled claims during the past three years.

## **NOTE 15 – LITIGATION AND CLAIMS**

The District is involved in various claims and litigation arising in the ordinary course of operations, none of which, in the opinion of the Board of Supervisors and District Manager, will have a material effect on the District's financial position.

## **NOTE 16 – SUBSEQUENT EVENTS**

### **Bond Payments**

Subsequent to fiscal year end, the District prepaid \$45,000 of the Series 2022-2 Bonds and \$35,000 of the Series 2022C Bonds. The prepayments were considered extraordinary mandatory redemptions as outlined in the Bond Indenture.

**TOLOMATO COMMUNITY DEVELOPMENT DISTRICT  
ST. JOHNS AND DUVAL COUNTIES, FLORIDA  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

The District is required to establish a budgetary system and an approved Annual Budget for the general fund. The District's budgeting process is based on estimates of cash receipts and cash expenditures which are approved by the Board. The budget approximates a basis consistent with accounting principles generally accepted in the United States of America (generally accepted accounting principles).

The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. The general fund budget for the fiscal year ended September 30, 2025 was amended to increase revenues by \$55,838; appropriations by \$559,785; and other financing sources by \$38,980. Actual general fund expenditures for the fiscal year ended September 30, 2025 exceeded appropriations by \$431,844. The over expenditures were funded by available fund balance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors  
Tolomato Community Development District  
St. Johns and Duval Counties, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, and each major fund of Tolomato Community Development District, St. Johns and Duval Counties, Florida ("District") as of and for the fiscal year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our opinion thereon dated February 27, 2026.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

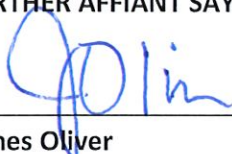

We noted certain matters that we reported to management of the District in a separate letter dated February 27, 2026.

# IMPACT FEE AFFIDAVIT

BEFORE ME, the undersigned authority, personally appeared James Oliver, who being duly sworn, deposes and says on oath that:

1. I am the District Manager of Tolomato Community Development District, which is a special-purpose governmental entity of the State of Florida.
2. The governing body of Tolomato Community Development District (District) adopted Resolution No. 2006-14 (Authorizing the County Administrator to Execute an Impact Fee Credit Agreement) and Resolution No. 2011-03 (Resolution concerning the Approval and Authorization to Execute the Impact Credit Fee Agreement with St. Johns County, Florida). According to the Impact Fee Credit Agreement with St John's County, the District was granted Road Impact Fee Credits. The sale of such Road Impact Fee Credits provides the District with a portion of the revenue needed for the construction of transportation improvements. Still, the continued sale of such is not guaranteed, and the timing of sales is uncertain. To proceed with the construction of roadways necessary for the continued growth of the development within the District, the District agreed with SONOC Company LLC (SONOC) to sell Road Impact Fee Credits. In exchange for the purchase credits, the District agrees with SONOC that all revenues (up to the amount of Purchased Credit) from impact fee purchases shall be first paid to SONOC LLC until the latter has recovered the dollar value of the Purchased Credits. The District will continue to issue impact fee vouchers, but the checks are to be made out to the order of SONOC Company LLC until such time that the amount of purchased credit is fully satisfied.
3. Tolomato Community Development District has complied and, as of the date of this Affidavit, remains in compliance with Section 163.31801, Florida Statutes.

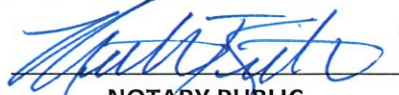

FURTHER AFFIANT SAYETH NAUGHT.

## **The District's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying Management Letter. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH THE  
REQUIREMENTS OF SECTION 218.415, FLORIDA STATUTES, REQUIRED BY  
RULE 10.556(10) OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA**

To the Board of Supervisors  
Tolomato Community Development District  
St. Johns and Duval Counties, Florida

We have examined Tolomato Community Development District, St. Johns and Duval Counties, Florida's ("District") compliance with the requirements of Section 218.415, Florida Statutes, in accordance with Rule 10.556(10) of the Auditor General of the State of Florida during the fiscal year ended September 30, 2025. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced in Section 218.415, Florida Statutes. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2025.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, management, and the Board of Supervisors of Tolomato Community Development District, St. Johns and Duval Counties, Florida and is not intended to be and should not be used by anyone other than these specified parties.

**MANAGEMENT LETTER PURSUANT TO THE RULES OF  
THE AUDITOR GENERAL OF THE STATE OF FLORIDA**

To the Board of Supervisors  
Tolomato Community Development District  
St. Johns and Duval Counties, Florida

**Report on the Financial Statements**

We have audited the accompanying basic financial statements of Tolomato Community Development District, St. Johns and Duval Counties, Florida ("District") as of and for the fiscal year ended September 30, 2025, and have issued our report thereon dated February 27, 2026.

**Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

**Other Reporting Requirements**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Auditor's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated February 27, 2026, should be considered in conjunction with this management letter.

**Purpose of this Letter**

The purpose of this letter is to comment on those matters required by Chapter 10.550 of the Rules of the Auditor General of the state of Florida. Accordingly, in connection with our audit of the financial statements of the District, as described in the first paragraph, we report the following:

- I. Current year findings and recommendations.**
- II. Status of prior year findings and recommendations.**
- III. Compliance with the Provisions of the Auditor General of the State of Florida.**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, as applicable, management, and the Board of Supervisors of Tolomato Community Development District, St. Johns and Duval Counties, Florida, Florida and is not intended to be and should not be used by anyone other than these specified parties.

We wish to thank Tolomato Community Development District, St. Johns and Duval Counties, Florida and the personnel associated with it, for the opportunity to be of service to them in this endeavor as well as future engagements, and the courtesies extended to us.

## REPORT TO MANAGEMENT

### I. CURRENT YEAR FINDINGS AND RECOMMENDATIONS

#### **2025-01 Budget:**

Observation: Actual expenditures exceeded appropriations in the general fund for the fiscal year ended September 30, 2025.

Recommendation: The District should amend the budget during the fiscal year or within statutory guidelines in a manner that ensure all expenditures are properly budgeted.

Management Response: The District did prepare a budget amendment; however, the amendment was insufficient to cover the final actual expenditures of the District for the Fiscal Year. The District will implement additional procedures to ensure future budget amendments required will exceed the actual expenditures of the District in accordance with the Auditor's recommendations.

### II. PRIOR YEAR FINDINGS AND RECOMMENDATIONS

None

### III. COMPLIANCE WITH THE PROVISIONS OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Unless otherwise required to be reported in the auditor's report on compliance and internal controls, the management letter shall include, but not be limited to the following:

1. A statement as to whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

There were no significant findings and recommendations made in the preceding annual financial audit report for the fiscal year ended September 30, 2024.

2. Any recommendations to improve the local governmental entity's financial management.

There were no such matters discovered by, or that came to the attention of, the auditor, to be reported for the fiscal year ended September 30, 2025, except as noted above.

3. Noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance.

There were no such matters discovered by, or that came to the attention of, the auditor, to be reported, for the fiscal year ended September 30, 2025, except as noted above.

4. The name or official title and legal authority of the District are disclosed in the notes to the financial statements.
5. The District has not met one or more of the financial emergency conditions described in Section 218.503(1), Florida Statutes.
6. We applied financial condition assessment procedures and no deteriorating financial conditions were noted. It is management's responsibility to monitor financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.
7. Management has provided the specific information required by Section 218.39(3)(c) in the Other Information section of the financial statements on page 32.
